## P R E F A C E .

---

It has been my intention to refer, in the following pages, to every passage of any importance under the word that best expresses its subject, whether that word is in the text or not, and in cases of doubt as to what word a passage would be looked for under, I have entered it under two or more. But, that significant expressions may be found readily, I have also indexed under their most prominent word all that seemed to me to be such. To have indexed all expressions under their principal words, would have been to make a phrase-concordance, which we already have, and would defeat the aim of this book by overloading it and wearying the student with references to a mass of unimportant allusions. Here the question of judgment necessarily comes in, and I may have omitted some references that a better editor would deem as significant as many that are included. I trust, however, that references to passages of importance under each topic will not be found wanting.

In order to make the book a convenient manual, and include information that a student of Shakspeare needs but would otherwise only find scattered through a great number of books, I have given short, outline histories of the plays, and sketches of the principal characters, with brief extracts from the ablest critics. In the case of historical characters and events, I have given dates and

statements of the facts as found in history. The explanations of allusions, of unusual words and phrases, and of words used in obsolete or peculiar senses, will be valuable, I believe, to the younger class of readers. Under some general heads—as “Bible,” “Diseases,” “Law,” “Omens,” and “Proverbs”—I have grouped together references that will enable students to consult as a whole Shakspeare’s expressions and allusions to the sciences of law and medicine, to the Bible, and to the folk-lore of his time as expressed in proverbs and popular superstitions. Under “Order and Dates of the Plays,” and “Sources,” I have repeated information that is given in the various histories of the plays, so as to place it in convenient form for comparison.

It may at first sight seem unnecessary to add another to the multitude of books on Shakspeare’s works, and aids to the study of them. But I think it will be found that no other of the same character—none that is properly an index, as distinguished from a concordance—has been published. One prepared by Francis Twiss, in two volumes (London, 1805), involved a vast amount of labor, but was rendered almost useless by over-condensation. It was essentially a concordance, as its full title shows: “A Complete Verbal Index to the Plays of Shakspeare; adapted to all editions. Comprehending every substantive, adjective, verb, participle, and adverb used by Shakspeare.” With the exception of about two hundred copies, the entire impression was destroyed by fire, and the book is now so rare that a copy has been sold for over seven pounds. Samuel Ayscough’s Index (London, 1790) was made for a special edition of the plays. Though long since out of print, it is not very rare; but this also is simply a concordance. Mrs. Cowden Clarke’s elaborate and exhaustive concordance (London, 1846) is well known; but it is rather costly, and

though admirable for all that it professes to be, is not an index to anything but words. Davenport Adams's concordance (London, 1885) is less bulky than Mrs. Clarke's, but still clings closely to the purely verbal plan. Other books give quotations by topics—notably John Bartlett's excellent "Shakspeare Phrase-Book" (Boston, 1882)—and some editions of the works give histories and sketches of the plays; but the combination of information here presented is new, and I have aimed to include those points which the reader would most desire to have in compact and convenient form for reference.

**All's Well that Ends Well**, a comedy first published in 1623, and judged to have been written in its present form about 1601 or 1602. But it is supposed to be a re-cast of an earlier play entitled "Love's Labour's Won," mentioned by Meres in 1598, though some editors have sought to identify that play with *Much Ado about Nothing*, others with *Taming of the Shrew*, and one at least with *The Tempest*. The general opinion, however, identifies it with this play. The story is from Boccaccio's "Decameron," where it is entitled "Giglietta di Nerbona," and was published in an English translation in Paynter's "Palace of Pleasure," where Shakspeare may have got it. The tale is followed quite closely in the principal incidents, but Shakspeare has added several important characters—Lafeu, Parolles, and the Countess. The scene is laid partly in France and partly in Italy, and the time is perhaps the fourteenth century. Although repellent in its plot, this play has some of Shakspeare's finest passages and some of his best creations of character.

**Angelo**, the deputy of the duke in *Measure for Measure*, introduced in the first scene—a cold-hearted, self-righteous man, who not only falls into the wickedness which he is making a great display of punishing, but aggravates it by cruelty and breach of faith. The development of the worse elements of his character, the existence of which he had never suspected, his surprise at his own fall, and the rapidity with which one baseness follows another in a life that was

all selfishness and show even in its virtues, are brought out in the play with great skill and subtlety.

Henry IV., i. 2*; an ancient, *Taming of the Shrew, iv. 2*. The meaning of the last is obscure, but perhaps one of the old stamp, a true coin. Some understand it to be a word cognate to *angle*, and to mean either the bait or the victim—that angled with or that angled for.

In *iv. 2*, he resolves that she shall die, so that he may marry his brother's daughter, and her death is announced in *iv. 3* (March 16, 1485). Her ghost appears to Richard in *v. 3*.

He is killed by a bear, *iii. 1*, when on the way to his ship after leaving her on the desolate coast of Bohemia (!).

**Antiochus**, King of Antioch, character in *Pericles*, Prince of Tyre, introduced in *i. 1*; his death, *ii. 4*. **Antipholus**, the name of twin brothers in the *Comedy of Errors*, who were separated in infancy, one being taken to Ephesus, the other to Syracuse. **Antonio**, brother of Prospero, in *The Tempest*, whose place and title as Duke of Milan he has usurped, first appears in *i. 1*. So far from repenting of his crime, he urges Sebastian, brother of the King of Naples, to commit a similar crime, and is willing himself to be the assassin.

**Antonio**, father of Proteus in the *Two Gentlemen of Verona*, appears in *i. 3*.

**Antonio**, brother of Leonato, in *Much Ado about Nothing*, introduced in *i. 2*.

**Antonio**, the merchant who is to lose the pound of flesh in *The Merchant of Venice*. He is the first speaker in the play. Although possessed of great wealth, he seems to care neither for hoarding nor spending it. The only passion he seems to have shown is his hatred of Shylock's usurious practices, intensified by the Christian hatred of his age for Shylock's race. Quiet, melancholy, and somewhat negative in character, he stands among the more lively personages of the play a sufferer rather than an actor.

**Antonio**, a sea-captain in *Twelfth Night*, introduced in *ii. 1*, a constant friend of Sebastian.

**Antonius, Marcus**, Marc Antony, character in *Julius Cæsar*, introduced in *i. 2*; Cassius proposes that he shall die with Cæsar, *ii. 1*; his message to Brutus, and lament over Cæsar, *iii. 1*; his funeral oration, *iii. 2*.

"He refined the rough features of Marc Antony into the character of an Alcibiades. He passed silently over the youth of his hero, he took from him his tendency to cruelty, covered the misdeeds of the triumvirate with a veil, showed only the best side of his rapacity and lavish prodigality, spoke loudly of his warlike past, his victory over Brutus and Cassius, his heroic endurance of hunger and want after his defeat at Modena, and strove especially to make his hero interesting on the score of brilliant natural gifts. It is not to be disputed that Shakspeare by these touches brought out the most attractive side of Antony. Even in the voluptuary and the profligate there is an alluring charm in the ready versatility, the natural superiority, the variety of talent, the abundance of resources, and in the natural aptness to fill any part. Antony was indeed a man thus variously endowed."—GERVINUS.

"Antony is a man of genius, with many splendid and some generous qualities, but self-indulgent, pleasure-loving, and a daring adventurer, rather than a great leader of the state."—DOWDEN.

**Antony and Cleopatra**, a tragedy, first published in the folio of 1623, is supposed to have been written in or near the year 1607, both from internal evidence and from the fact that in 1608 a book bearing the name was registered for publication, though for some reason it was not published, by Edward Blount, publisher of the first folio. It follows Plutarch's "Life of Antony" closely, beginning in the year 40 B. C., when Fulvia died, and covering a period of about ten years. The scenes are laid in Alexandria, Rome, Misenum, Athens, near Actium, Messina, and on a plain in Syria. White calls this, poetically, the most splendid creation of Shakspeare's genius, an opinion in which he follows Coleridge, who says:

"Of all Shakspeare's historical plays, *Antony and Cleopatra* is by far the most wonderful. There is not one in which he has followed history so minutely, and yet there are few in which he impresses the

notion of angelic strength so much, perhaps none in which he impresses it more strongly. This is greatly owing to the manner in which the fiery force is sustained throughout, and to the numerous momentary flashes of nature counteracting the historic abstraction."

**Antres** (caves), *Othello*, i. 3.

**Ape(s)**, the famous, *Hamlet*, iii. 4, allusion to some forgotten story; foreheads of, *The Tempest*, iv. 1; lead, in hell, *Much Ado about Nothing*, ii. 1; *Taming of the Shrew*, ii. 1. The proverbial future punishment of old maids was to lead apes in hell.

**Apemantus**, a cynic, character in *Timon of Athens*, introduced in i. 1.

"Diogenes, in Lily's 'Alexander and Campaspe,' sat to the poet for Timon's contrast, the cynic Apemantus; the quick, striking, epigrammatic answers to questions, which seem to be inserted here and there too much for the sake of eliciting witty replies, are quite on this model. The description of this antique fool is so perfect in its way that it is supposed Shakspeare must have seen the short sketch of a cynic, which, in Lucian's 'Public Sale of Philosophers,' is put into the mouth of Diogenes. It is there said that, in order to belong to this sect, a man must be bold and shameless, and revile every one from the king to the beggar; thus he will draw all eyes upon him, and appear manly. His speech must be barbarous, his voice dissonant, and exactly like a dog's; his face rigid, his expression the same, and altogether he must be brutish and rough. Shame, equity, and moderation must be dispensed with, and blushes must be wholly banished from his countenance."—GERVINUS.

"Grace, tenderness, speed, and especially freedom and lightness, the properties of his element, are peculiar to him. . . . Whilst the other spirits hate the magician, yet are compelled to serve him, Ariel obeys him thankfully and truly, without lies, without mistakes, without a murmur; for this, his perfect freedom, his all, is promised him within a certain time, and of this time, for good service, one year is abated. But even to wait this abridged time is painful to him. It is exquisitely conceived and very beautiful. What a peculiarly melancholic character the poet has cast over the being and relations of this creature, divided as he is between a superior nature and the aspirings of higher feelings! . . . His lord will miss him when he has given him his freedom; but he, the airy creature, will feel no longing after his dear master, whom he only seems to love for the sake of his promised freedom. He asks for more, for speedier freedom, and Prospero must, once in a month, recount to the quickly forgetting spirit the benefit he has received of his hands; then the variable servant struggles with his fluctuating nature, and is again all obedience, fidelity, and promptness."—GERVINUS.

He was imprisoned at the castle of Falaise in Normandy, and afterwards in the castle of Rouen, where

he is supposed to have met his death—not, as in the play, in England. He was undisputed heir to Anjou, Touraine, and Maine, and Duke of Brittany. As such he was a vassal of Philip, who took up his cause for his own interest, and went to war with John. Arthur first appears in *ii. 1*. **As You Like It**, a comedy first printed in 1623, though it was entered in the "Stationers' Register" for publication in 1600. It must have been written between 1598 and 1600. The story is taken from a tale by Thomas Lodge, "Rosalynde: Euphues' Golden Legacie," first published in 1590, and reprinted at least ten times before 1642. The characters of Jaques, Touchstone, and Audrey are not in the story; and Shakspeare changed the names of those he took, excepting Rosalind, Phoebe, Charles, and Adam (Adam Spencer in the story). The scene of the play is in the Forest of Arden and in France, though it does not correspond to Ardennes, and both place and time are indefinite, intentionally so, as the character of the play does not require definiteness in these respects.

In *Henry V.* he is again spoken of, now an old man and Duke of York, as dying on the field of Agincourt (*Henry V.*, iv. 6).

"The character of the Duke of Aumerle, who plays no brilliant part in *Richard II.* after his mother had saved him from the pun-

ishment of high treason, and has prayed to God to make 'her old son new,' is again silently brought forward by the poet in *Henry V.*, a new man indeed, who has become great with the heroic age, and dies the death of a hero at Agincourt."—GERVINUS.

**Authorship**. Following is a summary of the plays that are generally supposed to have been written in part by other hands than Shakspeare's:

*Titus Andronicus* is thought by most critics to have been the work of an earlier dramatist and merely touched up by Shakspeare, though some suppose it to be mainly his own work, and attribute its inferiority to the fact of its being his earliest play.

The three parts of *King Henry VI.*, which are recasts of two older plays, show other hands than Shakspeare's. The general opinion seems to be that Marlowe, Greene, Peele, and possibly Shakspeare wrote the old plays, and that they were revised by Shakspeare, with possibly the help of Marlowe.

*King Richard III.* is referred in part to Marlowe by some critics; others suppose that the passages ascribed to Marlowe were written by Shakspeare under the influence of Marlowe, his probable collaborator on *King Henry VI.*

A large part of *Henry VIII.* is judged to be by Fletcher, viz., *act i.*, *scenes 3 and 4*; the first two scenes of *act ii.*; all of the third act except the second scene to the exit of the king; and all the remainder except the first scene of *act v.*

The first and second acts of *Pericles*, and the second, fifth, and sixth scenes of the fourth act, and the choruses, are attributed to some other author or authors.

Shakspeare's part in *Taming of the Shrew* is limited by some critics to those parts in which Petruchio, Katherine, and Grumio appear prominently.

Parts of the witch-scenes in *Macbeth* have been conjectured to be the work of Thomas Middleton, author of the play "The Witch," who is supposed to have assisted in preparing *Macbeth* for the stage.

Others have seen traces of other hands in small portions of the *Comedy of Errors*, *Much Ado about Nothing*, the part of Hymen in *As You Like It*, *Romeo and Juliet*, and *Timon of Athens*; and the passage at the end of *act iii.* in *Measure for Measure*, the song beginning *act iv.*, and the fool's rhymes at the end of *King Lear*, *iii. 2*, are supposed to be interpolations.

Many plays have been ascribed to Shakspeare that are not included in the ordinary editions of his works. Of these *The Two Noble Kinsmen* has the greatest weight of opinion in its favour. It purports to be the work of Fletcher and Shakspeare. A part of the first and all of the second act of *Edward III.* have been attributed to him, and he is also supposed by some to have had a hand in *The Yorkshire Tragedy*. Other plays that have been thought to bear traces of his hand are *Arden of Feversham*, *The Birth of Merlin*, *Fair Emm*, *George a Green*, *Larum for London*, *The Merry Devil of Edmonton*, *Mucedorus*, and *Warning for Fair Women*.

**Autolycus**, an amusing and unique character in *A Winter's Tale*, a pedlar, thievish and witty.

**Beatrice**, the principal female character in *Much Ado about Nothing*, introduced in the first scene. She is perhaps the wittiest of Shakspeare's women. Her raillery is unsparing, especially toward Benedick, whom she singles out from the first for special attack. But she is at the same time warm-hearted and affectionate, as shown by her faithful and generous defence of Hero, when every one else, even Hero's father, believed in her guilt.

"Her true love for Hero, her deep conviction of her innocence, her anger at the designed malice of her public dishonour, stir up her whole soul and convert it into a perfect contrast to that which we have seen in her hitherto. This scene (*iv. 1*) possesses infinite effect when performed without the least caricature, displaying those acutely sensitive natures in all their agitation of feeling, yet without falling into a sentimental tone, of which they are incapable. Sorrow for Hero and for the honour of her house makes Beatrice gentle, tender, and weakened into tears; this 'happy hour' facilitates to both their serious confession. But, at the same time, this hour of misfortune tests them [Benedick and Beatrice], accustomed as they are only to jest and raillery, by a heavy trial, in the sustaining of which we are convinced that these gifted natures are not devoid of that seriousness of life which regards no earnest situation with frivolity."—GERVINUS.

Henry VI.*, introduced in the second scene of the former, and first of the latter. He is represented in the play as having been at Harfleur and Agincourt, though he really stayed at home as lieutenant of the whole realm of England. Henry V., on his death-bed, made him Regent of France. He was prudent, patriotic, and skilful; the greatest blot on his record is his treatment of Joan of Arc, whom he caused to be burned as a witch. He is said to have died of grief for the Treaty of Arras, which united the Duke of Burgundy and Charles VII. His death (*I. Henry VI.*, *iii.* 2) occurred in 1435.

**Belch**, Sir Toby, uncle of Olivia in *Twelfth Night*, introduced in *i.* 3.

"A drunkard, a coarse realist of the lowest sort, he yet possesses a slyness in seeing through the weaknesses of men who do not lie

beyond his range of vision ; rough and awkward in his manners, he yet so far knows how to assume the fashions of the town as to impose upon Sir Andrew ; impudent enough to make an alehouse of Olivia's palace, and to take no heed when she orders him to leave, he yet knows how to keep on good footing with the servants of the house."

**Benedick**, an important character in *Much Ado about Nothing*, introduced in the first scene. The war of wit between him and Beatrice constitutes the great attractiveness of the play, and the plot by which each is made to believe in the infatuation of the other, and by which they are brought together, relieves the more serious plot against the honour of Hero. See BEATRICE.

One Silvester Jourdan had published, not long before this play was written, "A Discovery of the Bermudas, otherwise called the Isle of Divels," giving an account of the wreck of a ship of Sir George Somers. Purchas, too, in his "Pilgrimage," spoke of the Bermudas as "rent with tempests."

**Berowne**, or Biron(e), one of the lords attending on the king in *Love's Labour's Lost*, the most sharply characterized among them, a wit who, as Coleridge says, is "evidently the pre-existent state of Benedick" in *Much Ado about Nothing*. He is introduced in the first scene.

**Berri**, Duke of, *Henry V.*, iii. 5.

**Bertram**, Count of Rousillon, character in *All's Well that Ends Well*, introduced in i. 1, a character very differently estimated by critics. Dr. Johnson says of it: "I cannot reconcile my heart to Bertram, a man noble without generosity, and young without truth; who marries Helena as a coward, and leaves her as a profligate." Gervinus says: "The nobility of a fine nature is innate in Bertram; his degeneracy into pride is only youthful error. . . . No inner mental life has yet penetrated his years of churlishness." While it is difficult to avoid regarding Bertram as something of a sneak, yet it seems evident that Shakspeare meant to portray him as one whose errors spring from an overweening pride of birth excusable to the heir of a name and fortune like his, from the natural thoughtlessness of youth, and from the influence of the vile Parolles, and by no means unredeemable by the influence of a woman like Helena, when once he is brought to appreciate her worth.

"I do not at present see into Shakspeare's motive, his *rationale*, or in what point of view he meant Brutus's character to appear. . . . Surely, nothing can seem more discordant with our historical preconceptions of Brutus, or more lowering to the intellect of the Stoico-Platonic tyrannicide, than the tenets here attributed to him—to him, the stern Roman republican—namely, that he would have no objection to a king, or to Cæsar, monarch in Rome, would Cæsar but be as good a monarch as he now seems disposed to be! How, too, could Brutus say that he found no personal cause—none in Cæsar's past conduct as a man? Had he not passed the Rubicon? Had he not entered Rome as a conqueror? Had he not placed his Gauls in the Senate? . . . What character did Shakspeare mean his Brutus to be?"—COLERIDGE.

Brutus "acts as an idealist and theorizer might, with no eye for the actual bearing of facts, and no sense of the true importance of persons. Intellectual doctrines and moral ideas rule the life of Brutus; and his life is most noble, high, and stainless, but his public action is a series of practical mistakes. Yet, even while he errs, we admire him, for all his errors are those of a pure and lofty spirit. He fails to see how full of power Antony is, because Antony loves pleasure, and is not a Stoic like himself; he addresses calm arguments to the excited Roman mob; he spares the life of Antony, and allows him to address the people; he advises ill in military matters. All the practical gifts, insight, and tact which Brutus lacks are possessed by Cassius; but of Brutus's moral purity, veneration of ideals, disinterestedness, and freedom from unworthy personal motive, Cassius possesses little. And the moral power of Brutus has in it something magisterial, which enables it to overshadow the practical judgment of Cassius."—DOWDEN.

"The character of Cæsar is conceived in a curious and almost irritating manner. Shakspeare (as passages in other plays show) was certainly not ignorant of the character of one of the world's greatest men. But here it is his weaknesses that are insisted on. He is failing in body and mind, influenced by superstition, yields to flattery, thinks of himself as almost superhuman, has lost some of his insight into character, and his sureness and swiftness of action. Yet the play is rightly named *Julius Cæsar*. His bodily presence is weak, but his spirit rules throughout the play, and rises after death in all its might, towering over the little band of conspirators, who at length fall before the spirit of Cæsar as it ranges for revenge."—DOWDEN.

His fortune, *ii. 3*; Lepidus's praise of, travestied, *iii. 2*; Antony's complaint of, *iii. 4*; laments Antony's death, *v. 1*.

In Julius Cæsar, Antony "was placed beside a man, the young Octavius, who even then treated him, the elder in politics and war, with haughtiness; in whose vicinity his genius (that is, the practical, actively disposed part of his genius) felt itself oppressed, and before whom his courage, his nobility, his magnanimity bowed, although unwillingly. An inward misgiving warned the more profound Julius Cæsar against Cassius; it needed a soothsayer to warn this superficial being against Octavius [*ii. 3*]. . . . Octavius owes his success more to Antony's luxuriousness, idleness, and frenzy than to his own merits. . . . Where [Antony] is genial and wanton, Octavius is full of petty carefulness; where the one idly, voluptuously, and madly puts off, neglects, and forgets every public duty, the other is all conscientiousness, economy, activity, and thoughtful quickness, and is prompted at least as much by the common interests of the state as by personal ambition."—GERVINUS.

He is of light disposition, fickle, mercurial, and of lively imagination, far inferior to his sister Isabella in strength and elevation of character.

**Claudio**, the lover of Hero in *Much Ado about Nothing*, introduced in the first scene. He is a young Florentine, who has been in the wars with Don Pedro of Aragon, and his bravery is spoken of before he enters.

“With regard to Claudio’s character, Shakspeare has so blended the elements in his nature, he has given such a good foundation of honour and self-reliance to his unstable mind and fickle youth, that we cannot, with all our disapprobation of his conduct, be doubtful as to his character. Changeable as he is, he continues stable in no choice of friends and loved ones, since he had never continuously tested them: at the slightest convulsion of events he is overpowered by first impressions, and he is without the strength of will to search to the bottom of things. This would be an odious and despicable character, if the changeableness were not tempered by the excitability of a tender feeling of honour.”—GERVINUS.

**Claudius**, Brutus’s servant in *Julius Cæsar*, appears in *iv. 3*.

**Claudius**, King of Denmark, Hamlet’s step-father, introduced in *i. 2*. In the original history he is called Fengo. "I have not the slightest doubt that Shakspeare's Cleopatra is the real historical Cleopatra, the 'rare Egyptian,' individualized and placed before us. Her mental accomplishments, her unequalled grace, her woman's wit and woman's wiles, her irresistible allurements, her starts of ungovernable temper, her vivacity of imagination, her petulant caprice, her fickleness and her falsehood, her tenderness and her truth, her childish susceptibility to flattery, her magnificent spirit, her royal pride, the gorgeous Eastern colouring of the character—all these contradictory elements has Shakspeare seized, mingled them in their extremes, and fused them into one brilliant impersonation of classical elegance, Oriental voluptuousness, and gipsy sorcery. What better proof can we have of the individual truth of the character than the admission that Shakspeare's Cleopatra produces exactly the same effect on us that is recorded of the real Cleopatra? She dazzles our faculties, perplexes our judgment, bewilders and bewitches our fancy; from the beginning to the end of the drama, we are conscious of a kind of fascination against which our moral sense rebels, but from which there is no escape."—MRS. (See Henry IV. of France.) It is known to have been acted at the Christmas Revels at Gray's Inn in 1594. The plot is from a translation by W. W. (William Warner) of the "Menæchmi" of Plautus, published in 1595, but made and circulated in manuscript some time before, or from an earlier English play, "The Historie of Error," acted at Hampton Court in 1576. A similar story is told in Goularb's "Admirable and Memorable Histories," 1607; and Dryden's play, "The Two Sosias," is founded on that of Plautus. In the original there is but one pair of twins. The play is full of anachronisms, and the time of action is indefinite. The scene is in Ephesus, a city that had a bad reputation for sorcery and all kinds of villainy.

**Constance of Brittany**, mother of Arthur in *King John*, introduced in *ii.* 1. After the death of Geoffrey Plantagenet, her husband, she was married by her father-in-law against her will to Randal de Blondville, whom she afterward separated from and then married Guy of Thouars. She died in 1201, before John gained possession of Arthur, though she is represented in the play as still living at that time and still a widow. Dramatically, Constance is a fine character. Her whole nature is dominated by her love for her son and her ambition for him. Without much principle or any fairness of mind, she is impassioned, imaginative, and eloquent where his rights are concerned, and some of the highest strains of poetry in the plays are uttered by her. See especially the scolding scene between her and Elinor, *act ii.*, *scene 1*, and also *act iii.*, *scenes 1* and *4*.

“Everything in her seems to lie beyond our view, and affects us in a manner which we feel rather than perceive. The character appears to have no surface, no salient points upon which the fancy can readily seize; there is little external development of intellect, less of passion, and still less of imagination. It is completely made out in the course of a few scenes. . . . It is not to be comprehended at once or easily. . . . The impression it leaves is beautiful and deep, but vague. Speak of Cordelia to a critic or to a general reader, all agree in the beauty of the portrait, for all must feel it; but when we come to details, I have heard more various and opposite opinions relative to her than any other of Shakspeare's characters. . . . What is it, then, which lends to Cordelia that peculiar and individual truth of character, which distinguishes her from every other human being? It is a natural reserve, a tardiness of disposition, ‘which often leaves the history unspoken which it intends to do;’ a subdued quietness of deportment and expression, a veiled shyness thrown over all her emotions, her language, and her manner; making the outward demonstration invariably fall short of what we know to be the feeling within.”—MRS. JAMESON.

**Coriolanus**, a tragedy first published in 1623, and from the evidences of style supposed to have been written at a late period of the author's work, 1608–1610. The material was drawn from the translation of Plutarch by Sir Thomas North, many passages and expressions being copied literally, though there are variations from the

story. The time of action fills about four years—494 to 490 B. C. It is one of the finest of the plays, dealing with the struggles between the patricians and the plebeians of Rome.

**Coriolanus**, Caius Marcius, surnamed, enters in the first scene of the drama that bears his name. His pride and disdain of the poor, *i. 1*; bravery, *i. 4, 6, 8, 9*; *iii. 2*; his sincerity, *iii. 1*; wounded, *i. 5*; fights with Aufidius, *i. 8*; refuses spoils, *i. 9*; receives his surname, *i. 9*; the people's hatred of him, *ii. 1*; his triumph and wounds, *ii. 1*; made consul, *ii. 2*; the tribunes' treachery, *ii. 3*; his arrest and sentence, *iii. 1*; will not sue to the people, *iii. 2*; goes to Aufidius, *iv. 4, 5*; marches against Rome, *iv. 6*; Aufidius's opinion of him, *iv. 7*; besought to return to Rome, *v. 1*; he is accused, *v. 6*; his death, *v. 6*.

Coriolanus is a noble and heroic character, ruined by his haughty, contemptuous, unbending spirit. When he is banished he goes away in bitterness and takes up arms against his country, but lays them down at the suit of his wife and mother. His relations with them form a relief to his hateful pride of rank and contempt for the people.

**Cymbeline**, a play classed with the tragedies, though not tragic in its ending. It was first printed in 1623, and is supposed to have been written in 1609 or 1610. The historic material for it, that regarding the Roman tribute, is taken from Holinshed. The story of Posthumus and his wife is from one of the novels of the "Decameron." The time, as nearly as can be determined of a play that utterly disregards consistency in time as well as in other regards, is shortly before the Christian era. The vision or dream of Posthumus, in iv. 4, is supposed to be by some other hand than Shakspeare's. The circumstances of the murder are taken from the account of the assassination of King Duff. In other respects, the play follows the traditionary story, as told in Holinshed, quite closely. The real Duncan, whose death took place by the treachery of Macbeth, Mormaer of Moray, in 1040, is said to have been an unjust and somewhat weak sovereign. The gracious character ascribed to him in the play is according to the chronicle.

The character of Edgar is contrasted with that of Edmund; both are able, but Edgar's uprightness and unsuspectingness make him at first an easy prey to his brother's scheme; yet he carries out his own designs with patience and skill.

**Edmund**, Earl of Rutland. See RUTLAND.

**Edmund**, an important character in *King Lear*, illegitimate son of Gloucester, introduced in the first scene. He is able, bold, and wicked, his wickedness finding some excuse in the fact that he is embittered by the stain upon his birth, and the consequent injustice which he feels he labours under, and some mitigation in the fact that he is not a hypocrite to his own conscience, but writes himself down "plain villain." His plot against Edgar, *i. 2*; *ii. 1*; his double-dealing with Regan and Goneril, *iv. 5, 6*; *v. 1, 3*.

**Edward IV.** (1442-1483), character in *II.* and *III. Henry VI.*, and *Richard III.* In the first he appears as Edward, son of the Duke of York, only in *v. 1*. In *III. Henry VI.* he is introduced in *i. 1*, as Earl of March. On the death of his father at Wakefield, *i. 4*, he becomes Duke of York and claimant to the throne. He defeats the Lancastrians at Mortimer's Cross, *ii. 1*. This scene gives the traditional origin of his device of the three suns. He went to London and was proclaimed king, then went north and won the battle of Towton (March 29, 1461), *ii. 4*, and returning to London was crowned king. His marriage with Lady Grey gives offence in France and turns the Earl of Warwick against him, *iii. 3*; *iv. 1*. His capture and rescue are in *iv. 3, 5, 6*; in *v. 2*, the battle of Barnet (April 14, 1471), where Warwick was killed, and in *v. 4* that of Tewksbury (May 4, 1471), where Margaret's forces were defeated. These

victories and the death of Henry VI. made him secure on the throne. The profligate character attributed to him in the play is matter of history. In *Richard III.* he is introduced in *ii. 1*; his remorse for the fate of Clarence, *ii. 1*; his death, *ii. 2*.

**Edward**, Prince of Wales (Edward V.), son of Edward IV., character in *Richard III.*, appears first in *iii. 1*, where he is sent to the Tower. **Eels**, *King Lear*, *ii. 4*. Allusion to the opinion that they were roused by thunder, *Pericles*, *iv. 3*.

**Eleanor**, Duchess of Gloucester, in *Richard II.* See GLOUCESTER.

**Eleanor**, wife of Humphrey, Duke of Gloucester. She was the daughter of Reginald, Lord Cobham, and celebrated for her beauty and bad morals. She is a character in *II. Henry VI.*, introduced in

*i. 2*, where her ambition to become queen is expressed, and her determination to resort to witchcraft; her meeting with the witch, *i. 4*; charge against her, *ii. 1*; sentenced to banishment, *ii. 3*; led bare-foot through the streets, *ii. 4*. It was charged that she or her accomplices melted before the fire a waxen image of the king, that his life might waste away as the wax melted. Her trial took place in 1441, and Queen Margaret did not arrive in England till 1445, so that their meeting in *i. 3* is by dramatic license. The "Hall of Justice" is St. Stephen's Chapel, Westminster. Eleanor was imprisoned in Chester Castle, and afterward in Kenilworth, where she died in 1454.

**Elinor of Aquitaine**, widow of King Henry II., character in *King John*, introduced in the first scene. She is the inspirer of the worst deeds of her son John. Constance, whom she hates and torments through Arthur, calls her an offence to morality. She had before incited her sons against their father, Henry II. (1122-1204).

**Elizabeth Woodville** (Lady Grey), queen of Edward IV., character in *Richard III.*, introduced in *i. 3*. In *iv. 4*, she entertains the proposal for her daughter's hand, of the king, the enemy of her house, and the one responsible for the murder of her sons. She was the daughter of Richard Woodville, Earl Rivers, and the first English woman that was raised from the rank of subject to that of royalty after the Conquest. Her first husband was Sir John Grey, who was slain at St. Albans fighting for the House of Lancaster. His estate was confiscated when the Yorkists came into power. Tradition says that she first met Edward IV. in a forest near Grafton, her father's residence, where he was hunting, and where she sought him to petition for the restoration of her husband's estate to her and her chil-

dren. The tree under which they were said to have met was known for centuries as the Queen's Oak. For other members of her family, see EDWARD V., ELIZABETH, RICHARD, RIVERS, and SCALES.

**Elizabeth**, the princess, daughter of Edward IV. Richard III. resolves to marry her, *iv.* 2, 3, and proposes it to her mother, *iv.* 4, who professes to entertain the proposal while secretly planning to marry her to Richmond in case of his success. She is betrothed to Richmond, *v.* 5. This united the title of the House of York to that of Henry VII., which was very slight.

**Elizabeth**, Queen, her birth, *Henry VIII.*, *v.* 1; christening, *v.* 2, 3, 4; Cranmer's prophecy concerning her, *v.* 4. “Emilia is a perfect portrait from common life, a masterpiece in the Flemish style: and though not necessary as a contrast, it cannot be but that the thorough vulgarity, the loose principles of this plebeian woman, united to a high degree of spirit, energetic feeling, strong sense, and low cunning, serve to place in brighter relief the exquisite refinement, the moral grace, the unblemished truth, and the soft submission of Desdemona.”—MRS. **Falstaff**, Sir John, appears in the two parts of *Henry IV.* and the *Merry Wives of Windsor*. He is the leader of the dissolute band that surround the Prince of Wales. In *I. Henry IV.* he first appears in *i. 2*. This scene and *ii. 4* are full of bantering epithets and allusions to his size, directed against him by his companions. His adventure at Gadshill, *ii. 2*; takes the character of *Henry IV., ii. 4*; his account of his soldiers, *iv. 2*; he counterfeits death at the battle of Shrewsbury, *v. 4*. In the *Merry Wives of Windsor* he is introduced in the first scene. His character in this play appears much more degraded than in *Henry IV.* The time is probably shortly before the death of the king. His wit, or at least his shrewdness, seems to have deserted him, and he is outwitted by simple people whom he despises. Gervinus, who finds a moral design in everything, thinks that Shakspeare exhibited the deterioration of his character, and threw it into contrast with the ennoblement of the prince's, to show his essential baseness, and do away with whatever bad impression may have been made by the glamour that his wit throws over his moral qualities. However that may be, the reader is prepared by this play for the disgrace that overtakes him, which otherwise would seem cruel and not altogether deserved. His hypocrisy and inconsistency, *ii. 1*; ridicule of his size, *ii. 1*; *iii. 5*; *iv. 4, 5*; his honour, *ii. 2*; epithets applied to him, *i. 3*; *iii. 1*; *v. 5*; his adventure in the buck-basket, *iii. 3*; in a woman's clothes, *iv. 2*; at Herne's oak with the fairies, *v. 5*. See MERRY WIVES OF WINDSOR. He is introduced in *II. Henry IV.*, in *i. 2*, where he talks with the chief justice; arrested at the instance of Mrs. Quickly, *ii. 1*; overheard by the prince in disguise, *ii. 4*; ridiculed, *ii. 2, 4*; *iv. 3*; his recruits for the army, *iii. 2*; his expectations from the prince, *v. 3*; disappointed, *v. 5*; banished from the prince, *v. 5*. His death is described by Mrs. Quickly in

*Henry V.*, *ii.* 3, and he is spoken of by Fluellen in *iv.* 7 of the same play. The name of this character was at first Sir John Oldcastle, *q. v.*

“Falstaff, not a degraded man of genius, like Burns, but a man of degraded genius, with the same consciousness of superiority to his companions [as Iago and Richard III.], fastened himself on a young prince, to prove how much his influence on an heir-apparent would exceed that of a statesman. With this view he hesitated not to adopt the most contemptible of all characters, that of an open and professed liar; even his sensuality was subservient to his intellect; for he appeared to drink sack that he might have occasion to show off his wit. One thing, however, worthy of observation, is the perpetual contrast of labour in Falstaff to produce wit with the ease with which Prince Henry parries his shafts; and the final contempt which such a character deserves and receives from the young king, when Falstaff exhibits the struggle of inward determination with an outward show of humility.”—COLERIDGE.

**Hamlet** is introduced in i. 2 of the play of the name. Amlettus, Amleth, and Hamblet are older forms of the name. In i. 4 he sees the ghost of his father, and in i. 5 learns the manner of his death and vows revenge; his soliloquy, iii. 1; he learns by his artifice with the players, iii. 2, that there is no mistake about the king's guilt; feigns madness, kills Polonius by mistake for the king, iii. 4; is sent to England, iv. 3; returns, iv. 6; at Ophelia's grave, v. 1; fights with Laertes and dies, v. 2.

"I believe the character of Hamlet may be traced to Shakspeare's deep and accurate science in mental philosophy. Indeed, that this character must have some connection with the common fundamental laws of our nature may be assumed from the fact that Hamlet has been the darling of every country in which the literature of England has been fostered. . . . In Hamlet he seems to have wished to exemplify the moral necessity of a due balance between our attention to the objects of our senses, and our meditation on the workings of our minds, an equilibrium between the real and the imaginary worlds. In Hamlet this balance is disturbed: his thoughts and the images of his fancy are far more vivid than his actual impressions, and his very

perceptions, instantly passing through the medium of his contemplations, acquire as they pass a form and a colour not naturally their own. Hence we see a great, an almost enormous intellectual activity, and a proportionate aversion to real action consequent upon it, with all its symptoms and accompanying qualities. This character Shakspeare places in circumstances where it is obliged to act on the spur of the moment; Hamlet is brave and careless of death; but he vacillates from sensibility and procrastinates from thought, and loses the power of action in the energy of resolve. . . . Shakspeare seems to mean all Hamlet's character to be brought together before his final disappearance from the scene; his meditative excess in the grave-digging, his yielding to passion with Laertes, his love for Ophelia blazing out, his tendency to generalize on all occasions in the dialogue with Horatio, his fine gentlemanly manners with Osric, and his and Shakspeare's own fondness for presentiment: 'But thou wouldst not think how ill all's here about my heart: but it is no matter.'—COLERIDGE.

**Hamlet, Prince of Denmark**, a tragedy first published in 1603 in a meagre form, either Shakspeare's first draft of the play, or an unauthorized version made up from parts supplied to actors, probably the former. In its enlarged form it appeared in 1604, and in two or three later editions before the folio of 1623 was published. The first appearance of the story of Hamlet, so far as is known, was in the "Historia Danica" of Saxo Grammaticus, a Danish historian, who wrote it about 1204. A version of the story in Italian by Banello was translated into French by Belleforest, from which it was rendered into English, though no earlier edition of the English translation is known than one of 1608. Besides these there was an older play in English on the subject, which has not come down to us. In the "Hystorie of Hamblet" the time is placed before the introduction of Christianity into Denmark, and in fact before Christ. Shakspeare leaves the time indefinite, though the characters are Christians. The period of action seems to be but a few months. None of the plays has excited more interest or more study and criticism. There is an opinion that the main characters were intended for portraits more or less exact of personages of Shakspeare's own time, Hamlet himself being referred to Sir Philip Sidney.

He was a favourite of Edward IV., and supposed himself to be in favour with Richard, who, however, ordered him to execution, *iii. 4*, probably because he saw that Hastings would not go with him in his intended crimes against his nephews. The accusations made against him are in *iii. 5, 6*; his ghost appears to Richard, *v. 3*. The character of Hastings in the play is frank, open, and unsuspecting; on his way to execution he recalls the curses invoked on him by Queen Margaret for looking on at the murder of her son, *i. 3*. It was not he, but his son, Edward Hastings, who married the daughter of Sir Thomas Hungerford (*iv. 1*). Lord William Hastings rebuilt the castle of Ashby de la Zouch, mentioned in "Ivanhoe."

She chose him from among many suitors, all of whom took an oath, before her decision was made, to defend and avenge her if necessary, whatever her choice might be. Paris persuaded her to elope with him to Troy, and from this arose the Trojan war. She is talked of in *Troilus and Cressida*, *i.* 2; the question of giving her up discussed in *ii.* 2; she is introduced in *iii.* 1; at the end of *iv.* 1, Diomedes bitterly estimates her cost to Greece and Troy; mentioned, *As You Like It*, *iii.* 2, song; *All's Well that Ends Well*, *i.* 3, song; *III. Henry VI.*, *ii.* 2; *Lucrece*, *l.* 1368; *Sonnet liii*; *Midsummer-Night's Dream*, *v.* 1.

**Helen**, Imogen's attendant in *Cymbeline*, introduced in *ii.* 2.

**Helena**, character in *Midsummer-Night's Dream*, introduced in *i.* 1. She is in love with Demetrius, who loves Hermia, who again is in love with Lysander. Lysander returns Hermia's love, except for a short time, when he is under the enchantment produced by the fairies, when he loves Helena. In her self-distrust she thinks it is a jest put upon her by Hermia and her lover. In character she is gentler than Hermia, but not altogether generous, as she runs off to tell of Hermia's elopement. The smaller girl, in her jealousy, calls Helena a "painted Maypole."

**Helena**, heroine of *All's Well that Ends Well*, introduced in the first scene. Taking the repulsive rôle of the heroine of the original tale, Shakspeare has portrayed a character of great sweetness and strength. Helena is at the same time clever and self-sacrificing, meek and high-spirited, willing to renounce if necessary, and yet quick to see the way to win, and firm and clear-headed in availing herself of it. Many of the most beautiful passages of the play are put into her mouth and express her "pious trust and persevering, steadfast nature, which from her youth up, on account of her lowly position, has rendered her self-dependent," the depth and at the same time the straightforward simplicity of her character.

**Helenus**, son of Priam, character in *Troilus and Cressida*, introduced in *i.* 2; satirized by Troilus, *ii.* 2.

**Helicanus**, a lord of Tyre, in *Pericles*, introduced in *i.* 2. He is an adviser of the prince; refuses the crown, *ii.* 4. "A figure of truth, of faith, of loyalty."

**Hell**, set on fire, *Merry Wives of Windsor*, v. 5; cunning livery of, *Measure for Measure*, iii. 1; gate of, *Much Ado about Nothing*, ii. 1; what hole in, hot enough, *I. Henry IV.*, i. 2; a fate to remind of, *I. Henry IV.*, iii. 3; dream of, *Richard III.*, i. 4; the porter imagines himself keeper of the gate of, *Macbeth*, ii. 3.

**Hell** (cant for prison), *Comedy of Errors*, iv. 2.

**Hellespont**, the, *Two Gentlemen of Verona*, i. 1. The strait between the Mediterranean and the Sea of Marmora.

**Hemlock**, *Macbeth*, iv. 1; perhaps the "insane root" mentioned in *Macbeth*, i. 3.

**Henry**, Kings, IV., V., VI., and VIII., dramas of. See KING HENRY IV., etc.

**Henry**, Prince, son of King John, appears in the last scene of *King John*, speaking as a man. In truth, he was but nine years old when his father died in 1216. He reigned under the title of Henry III.

**Henry IV.**, first of the Lancastrian kings. He was the son of John of Gaunt, Duke of Lancaster, and was born in 1366, died in 1413. He is a character in *Richard II.*, as well as in the plays that bear his name. In the former play he is called Bolingbroke, a title given him from the name of the town where he was born. He was Duke of Hereford during Richard's reign. In *Richard II.* he appears in the first scene in a quarrel with Norfolk concerning the murder of his uncle, the Duke of Gloucester. His meeting with Norfolk, i. 3. His intended marriage is spoken of in ii. 1. He was to marry the cousin of the French king, but Richard hearing of it sent Salisbury to prevent it. Richard was forced to resign the crown, and Henry was proclaimed, iv. 1. A plot against his life was discovered by York, v. 2. In *I. Henry IV.* he is introduced in the first scene; in *II. Henry IV.* in iii. 1. The rebellion of the Percys and their party embittered his reign, and the wildness of his eldest son was a continual grief to him—evils which he believed sent on him in punishment of his usurpation and in fulfilment of the curse of *Richard II.* He intended to go on a crusade, but was prevented by the rebellion. A prophecy had told him he was to die in Jerusalem—a prophecy he understood when he found that the chamber where he was taken with his last illness was called the Jerusalem Chamber, after a fashion of naming the rooms of inns. Henry IV. is brave and wise in action, but at times morbid, distrustful, and suspicious; prompt and noble at decisive moments, he frets away his leisure with remorse and apprehension.

**Henry V.**, called Henry of Monmouth and Prince Hal, son of Henry IV., born at Monmouth in 1388, reigned from 1413 to 1422. He is a character in the two parts of *Henry IV.*, as well as in the play that bears his name. His dissoluteness is spoken of in *Richard II.*, *v. 3*, where he is mentioned as a young man, though in reality only eleven years of age at that time. In *I. Henry IV.* he is introduced in *i. 2*, and his mad pranks with his wild comrades are represented in that play. In *act v.* he shows unexpected bravery in the battle of Shrewsbury. In *II. Henry IV.* he appears first in *ii. 2*. In the close of that scene he soliloquizes on the company he keeps and his reasons and intentions. He is described by Falstaff in *ii. 4*. His father's forebodings as to his reign are expressed in *iv. 4*; those of the Chief Justice, in *v. 2*. At his father's death he reforms, *v. 2* and *5*; dismisses his low companions, and becomes one of the most successful and the best loved of English sovereigns. His versatility, *Henry V.*, *i. 1*; his reputation, *ii. 4*; among his soldiers, *iv.*, *chorus*; his piety, *iv. 1, 8*; *v.*, *chorus*; at Agincourt, *act iv.*; his wooing, *v. 2*; his funeral, *I. Henry VI.*, *i. 1*; his wars in France, *II. Henry VI.*, *i. 1*.

“The prince, whom Shakspeare admires and loves more than any other person in English history, afterward to become Shakspeare's ideal King of England, cares little for mere reputation. He does not think much of himself and of his own honour; and while there is nothing to do, and his great father holds all power in his own right hand, Prince Hal escapes from the cold proprieties of the court to the boisterous life and mirth of the tavern. He is, however, only waiting for a call to action, and Shakspeare declares that from the first he was conscious of his great destiny, and, while seeming to scatter his force in frivolity, was holding his true self, well guarded, in reserve.”—DOWDEN.

**Henry VI.**, King (1421–1471), character in the three plays that bear his name. His kindness to his subjects, third part, *iv. 8*; his death, *v. 6*. During his reign England lost all that she had gained in France under Henry V., and all that was done to save his crown at home was done by his queen—who, however, was very unpopular—and by the partisans of his house. They were successful in the battle of Wakefield, but were defeated at St. Albans, Bloreheath, Northampton, Towton, Hexham, Barnet, and Tewksbury. “Henry, if we judge him sternly, is cruel and self-indulgent; but Shakspeare will hardly allow us to judge Henry sternly. He is a lordly figure, with a full, abounding strength of nature, a self-confidence, an ease and mastery of life, a power of effortless sway, and seems born to pass on in triumph over those who have fallen and are afflicted.”—DOWDEN.

"Some persons, more nice than wise, have thought this whole character unnatural because his villainy is *without a sufficient mo-*

*tive*. . . Iago, in fact, belongs to a class of characters common to Shakspeare, and at the same time peculiar to him; whose heads are as acute and active as their hearts are hard and callous. Iago is, to be sure, an extreme instance of the kind—that is to say, of diseased intellectual activity, with an almost perfect indifference to moral good or evil, or rather with a decided preference for the latter, because it falls more readily in with his favourite propensity, gives greater zest to his thoughts and scope to his actions.”—HAZLITT.

"The very crown and flower of all her father's daughters. I do not speak here of her human father, but her divine—the woman above all Shakspeare's women is Imogen. As in Cleopatra we found the incarnate sex, the woman everlasting, so in Imogen we find half glorified already the immortal godhead of womanhood. I would fain have some honey in my words at parting—with Shakspeare never, but forever with these notes on Shakspeare; and I am there—

fore something more than fain to close my book upon the name of the woman best beloved in all the world of song and all the tide of time, upon the name of Shakspeare's Imogen."—SWINBURNE.

"Imogen, Desdemona, and Hermione are three women placed in situations nearly similar and equally endowed with all the qualities which can render that situation striking and interesting. They are all gentle, beautiful, and innocent; all are models of conjugal submission, truth, and tenderness; and all are victims of the unfounded jealousy of their husbands. So far the parallel is close, but here the resemblance ceases. . . . Critically speaking, the character of Hermione is the most simple in point of dramatic effect, that of Imogen is the most varied and complex. Hermione is most distinguished by her magnanimity and her fortitude, Desdemona by her gentleness and refined grace, while Imogen combines all the best qualities of both with others which they do not possess; consequently she is, as a character, superior to either; but, considered as women, I suppose the preference would depend on individual taste."—MRS. **Jaques**, the melancholy, one of the lords attending the banished duke in *As You Like It*.

"Jaques is not a bad-hearted egoist, like Don John, but he is a perfectly idle seeker for new sensations, and an observer of his own

feelings; he is weary of all that he has found, and especially professes to despise the artificial society, which yet he never really escapes from, as the others do. His wisdom is half foolery, as Touchstone's foolery is half wisdom."—DOWDEN.

Supposed to be Sly's blunder for a phrase from Thomas Kyd's play "The Spanish Tragedy; or, Hieronimo is Mad again," published in 1603, but acted before that time. Ben Jonson played Hieronimo. **Jerusalem Chamber**, the, *II. Henry IV.*, *iv. 4*.

**Jessica**, daughter of Shylock in the *Merchant of Venice*, introduced in *ii. 3*.

"The little Jessica is placed by the poet no higher than she could be; brought up, as she was, without a mother, in the society of Shylock and Launcelot, with a mind entirely child-like, *naïve*, true, and spotless; and, if we may trust Lorenzo's words and her sure perception of the greatness of Portia, with a capacity for true wisdom. . . . Launcelot also bears a relation to the common idea of the piece.

Greedy and rough as he is, he also is inclined to lack economy. . . . Otherwise the scene with his father is exhibited in parodic contrast to Jessica's relation with hers. The emphasis of the scene lies in the words that the son of a father must ever come to light, that child-like feeling can never be renounced, not even by so coarse and blunt a fellow as this. How much more should this be the case with a being so ethereal as Jessica! But that it is not so is the strongest shadow thrown by the poet upon Shylock; he has not designed by it to cast any upon Jessica. 'She is damn'd,' says Shylock. 'That's certain, if the devil may be her judge,' answers Salarino."—GERVINUS.

**Jest(s)**, an unseen, *Two Gentlemen of Verona*, ii. 1; the prosperity of a, *Love's Labour's Lost*, v. 2, "Why, that's the way," etc.; a, in a fool's ear, *Hamlet*, iv. 2 (or v. 6); at scars, *Romeo and Juliet*, ii. 2; effect of a, *II. Henry IV.*, v. 1. See JOKES, WIT.

**Jester(s)**, reform for a, *Love's Labour's Lost*, v. 2; oft prove prophets, *King Lear*, v. 3.

**Jesters**. Touchstone in *As You Like It*, Feste in *Twelfth Night*, the clown in *All's Well that Ends Well*, and the fool in *King Lear*, are the most noteworthy jesters in the plays.

**Jeweller**, a, in *Timon of Athens*, i. 1, seeking patronage.

**Jewess's eye**, *Merchant of Venice*, ii. 5. The Jews were forced to pay the price of an eye—that is, a ransom—to save themselves from mutilation, hence the proverb, "Worth a Jew's eye." Another explanation, however, makes the expression a corruption of the Italian for jewel, *gioia*.

**Jewry**, the sepulchre in, *Richard II.*, ii. 1.

**Jew(s)**, would have wept, *Two Gentlemen of Verona*, ii. 3; used opprobriously, *Two Gentlemen of Verona*, ii. 5; I am a, if, *Much Ado about Nothing*, ii. 3; treatment of, *Merchant of Venice*, i. 3; ii. 2; of like nature with Christians, *Merchant of Venice*, iii. 1; an Ebrew, *I. **Joan of Arc**, La Pucelle, character in *I. Henry VI.*, first appears in *i. 2*, where she convinces the dauphin of her mission by fighting with and conquering him. In *v. 3*, she summons fiends to her aid, but is taken by York; in *v. 4*, she denies her father, and is ordered to execution. Joan was burned at the stake in Rouen, May 30, 1431. History bears undisputed testimony to the purity, lofty enthusiasm, and disinterestedness of her character. In drawing her as a vile sorceress the authors of the play followed the English prejudice of the time.

**Job**, allusion to the Book of, *Merry Wives of Windsor*, *v. 1*; poor as, *Merry Wives of Windsor*, *v. 5*.

**Jog on, jog on, the footpath way**, *A Winter's Tale*, *iv. 2* or *3*. Part of an old round for three voices.

**John**, King, drama of. See KING JOHN.

**John**, King of England from 1199 to 1216, succeeded his brother Richard I., or *Cœur de Lion*, according to a will that he brought forward after Richard's death, though Richard had named his nephew Arthur his successor in 1190. John's title was further confirmed by an election, the hereditary principle in succession not having been established at that time. The story, in *v. 6*, that he was poisoned by a monk, is not found in the histories of the time, but is mentioned by Holinshed. Of the character of John as delineated in the play, Gervinus says:

"He is not the image of a brutal tyrant, but only the type of the hard, manly nature, without any of the enamel of finer feelings, and without any other motives for action than those arising from the instinct of this same inflexible nature and of personal interest. Severe and earnest, an enemy to cheerfulness and merry laughter, conversant with dark thoughts, of a restless, excitable temperament, he quickly rises to daring resolves. . . . No higher principle sustains the man and his energetic designs in time of danger; the great idea at the outset of his career leaves him during its progress and at its end. After his power, thus displayed against France, has risen even to the defiance of the Pope and the Church, and to the inconsiderate design upon the life of a child whose temper was not to be feared, and had not even been tried by him, it sinks down, struck by conscience, by curses, and by prophecies, by dangers without and within; he becomes anxious, mistrustful, superstitious, fearful to absolute weakness and to a degree of faint-heartedness, in which he sells his country as cheap as once, in his self-confidence, he had held it dear and defended it boldly."

**John of Gaunt.** See GAUNT.

**John of Lancaster.** See LANCASTER.

**John,** Don, bastard brother of Don Pedro in *Much Ado about Nothing*, introduced in *i. 1*. He is of black and sour disposition, and the villain of the play. "Juliet is love itself. The passion is her state of being, and out of it she has no existence. . . . Such, in fact, are the simplicity, the truth, and the loveliness of Juliet's character, that we are not at first aware of its complexity, its depth, and its variety. There are in it an intensity of passion, a singleness of purpose, a completeness of effect, which we feel as a whole."—MRS. JAMESON.

**Julius Cæsar**, an historic tragedy, first published in 1623. The date of writing is not certainly known, but the critics assign it to the year 1600 or 1601, judging from internal evidence as well as from an allusion to Antony's speech in a poem printed in 1601. Sir Thomas North's translation of Plutarch furnished the materials, which are taken from the lives of Cæsar, Brutus, and Antony. The action covers the space from the feast of Lupercalia, February 13, B. C. 44, to the battle of Philippi, in the autumn of 42, a period of about two and a half years. There is an allusion to a play called "Julius Cæsar" in *Hamlet*, *iii. 2*, which by some is supposed to refer to this drama. But it may refer to a Latin drama on the subject, by Richard Eades, which was played at Oxford in 1582.

"Everything is wrought out in the play with great care and completeness; it is well planned and well proportioned; there is no

tempestuousness of passion, and no artistic mystery. The style is full, but not overburdened with thought or imagery; this is one of the most perfect of Shakspeare's plays; greater tragedies are less perfect, perhaps for the very reason that they try to grasp greater, more terrible, or more piteous themes."—DOWDEN.

**Katharine**, one of the ladies attending the princess in *Love's Labour's Lost*, introduced in ii. 1. She is sought in marriage by

Dumain, but puts him off for a twelvemonth and a day. She was poek-marked, as appears by a jest of Rosalind in *v. 2*.

**Katherine of Aragon**, Queen, character in *Henry VIII.*, introduced in *i. 2*. The subject of her divorce from Henry is discussed in *ii. 1, 2*; her goodness, *ii. 2, 4*; her petition to the king, the trial, and her reproaches to Wolsey, *ii. 4*; interview with the cardinals, *iii. 1*; the divorce, *iv. 1*; her vision, letter to the king, and approaching death, *iv. 2*. The character of Katherine in the play is very noble; her pride of birth and station never deserts her, but it is united with religious meekness and long-enduring affection, and gives a noble dignity and pathos to her words and the struggle to maintain the position to which she feels she has a right. In the scenes where she appears, Shakspeare has followed the chronicles in the main, only giving poetic grouping and colouring to their accounts. The scene in which the vision appears to the queen is attributed to Fletcher.

**Kecksies.** See KEXES.

**Keech** (a lump of fat), *Henry VIII.*, *i. 1*. Alluding to Wolsey's corpulence, and his being reputed a butcher's son; *I. Henry IV.*, *i. 4*.

**Kenilworth Castle**, *II. Henry VI.*, *iv. 4*; scene of *II. Henry VI.*, *iv. 9*. An ancient castle, now in ruins, about five miles from Warwick and the same distance from Coventry. The first castle, which was destroyed in the eleventh century in the wars between Edmund Ironside and Canute the Dane, is supposed by some antiquaries to have been founded in the time of Kenelph, a King of Mercia, and to have taken its name from him. The present castle was built by Geoffrey de Clinton in the reign of Henry I. It belonged successively to many of the greatest subjects of the Kings of England—including Simon de Montfort, John of Gaunt, and Dudley, Earl of Leicester—and several times reverted to the crown. John of Gaunt made many additions to the castle, which are still known as Lan-

caster's Buildings, and the celebrated Earl of Leicester, Elizabeth's favorite, many more, called Leicester's Buildings. Cromwell's soldiers plundered the castle and left it in ruins. Some parts have since been repaired, and excavations have revealed underground apartments and passages long hidden. During the Wars of the Roses the castle was sometimes in the possession of one party, sometimes in that of the other. Henry VI. retired to it in some times of adversity, as in the text.

**Kent, Thomas Holland**, Earl of, beheaded, *Richard II.*, *v.* 6.

**Kent**, the Earl of, character in *King Lear*, introduced in *i.* 1, where he is banished by Lear for remonstrating against the treatment of Cordelia; he follows the king, however, in his misfortune, acting as his servant under the name of Caius, and brings about the meeting with Cordelia in the last scene. See under KING LEAR.

"Kent is perhaps the nearest to perfect goodness in all Shakspere's characters, and yet the most individualized. There is an extraordinary charm in his bluntness, which is that only of a nobleman arising from a contempt of overstrained courtesy, and combined with easy placability where goodness of heart is apparent."—COLERIDGE.

**Kerns** (light-armed troops from Ireland), *Macbeth*, *i.* 2, and elsewhere.

**King**, On the, a quatrain attributed to Shakspeare, and usually placed at the end of the miscellaneous poems. If it is his, it of course refers to James I., who liked to be flattered about his learning. It exists in a manuscript written in the time of his successor, in which the verses are entitled "Shakspeare on the King."

**King Cophetua**, ballad of, *Love's Labour's Lost*, i. 2.

**King Henry the Fourth**, Parts I. and II. These two plays may be regarded as essentially one. The first part was written in 1596-'97, the second in 1597-'98. The first part was published in 1598, the second in 1600. The sources from which it was in part drawn were the "Chronicles" of Holinshed and an older play, "The Famous Victories of Henry the Fifth, containing the Honourable Battell of Agincourt." From the play were gathered the hints for the wild pranks of the prince and his low companions. Among them was one Sir John Oldcastle, the name borne by Falstaff in the first editions of Shakspeare's play, though he has little to say or do in the old drama. (See OLDCASTLE.) The period of action of Part I. extends from the battle of Holmedon Hill, September 14, 1402, to the battle of Shrewsbury, July 21, 1403. Part II. extends from that time to the death of Henry IV. in 1413. These two plays, with *Henry V.*, which is a continuation of them, are the finest of the English historical plays. See HENRY IV.

"None of Shakspeare's plays are more read than the First and Second Parts of Henry the Fourth. Perhaps no author has ever, in two plays, afforded so much delight. The great events are interesting, for the fate of kingdoms depends on them; the slighter occurrences are diverting, and, except one or two, sufficiently probable; the incidents are multiplied with wonderful fertility of invention, and the characters diversified with the utmost nicety of discernment and the profoundest skill in the nature of man. . . . The character

[of the prince] is great, original, and just. Percy is a rugged soldier, choleric and quarrelsome, and has only the soldier's virtues, generosity and courage. But Falstaff! unimitated, unimitable Falstaff! how shall I describe thee? thou compound of sense and vice; of sense which may be admired, but not esteemed; of vice which may be despised, but hardly detested. Falstaff is a character loaded with faults, and with those faults which naturally produce contempt. He is a thief and a glutton, a coward and a boaster; always ready to cheat the weak and prey upon the poor; to terrify the timorous and insult the defenseless. . . . Yet the man thus corrupt, thus despicable, makes himself necessary to the prince that despises him, by the most pleasing of all qualities, perpetual gaiety, by an unfailing power of exciting laughter, which is the more freely indulged, as his wit is not of the splendid or ambitious kind, but consists in easy escapes and sallies of levity, which make sport, but raise no envy."—JOHNSON.

**King Henry the Fifth**, which, as promised in the epilogue to the second part of *Henry IV.*, continues the story, was probably written in 1598 or 1599: the prologue or chorus to *Act v.* has a reference to the absence of Essex in Ireland, the time of which was between March and September, 1599. There is also a reference to "this wooden O," the Globe Theatre, built in 1599. An unauthorized and imperfect edition was published in 1600, and the full text in 1623. For the source drawn upon, see KING HENRY IV. The time of action is from 1414 to 1420. See HENRY V. Dowden says:

"In this play Shakspeare bade farewell in trumpet tones to the history of England. It was a fitting climax to the great series of works which told of the sorrow and the glory of his country, embodying as it did the purest patriotism of the days of Elizabeth."

**King Henry the Sixth.** The three plays that bear this name were produced early in Shakspeare's career, the first from 1590 to 1592, the second and third from 1592 to 1594, probably.

The first part is held to be mostly from other hands than Shakspeare's, an old play, perhaps, by Marlowe, with the assistance of Greene or Peele, touched up by Shakspeare, to whom are attributed the fourth scene of *Act ii.*, and that between Margaret and Suffolk, *v. 3.* The time of action is 1422 to 1444. The facts are drawn from Holinshed. The second and third parts are rewritten from two older plays: "The First Part of the Contention betwixt the Two Famous Houses of York and Lancaster," etc., and "The True Tragedie of Richard Duke of York and the Death of Good King Henrie the Sixt." Critics differ about these plays; some holding that Shakspeare had a hand in them, others that they were written by Greene, Marlowe, and Peele, one or more of them; and some attributing the

entire revision to Shakspeare, others supposing that Marlowe assisted him. The period of action of the second part is 1445 to 1455; that of the third part, 1455 to 1471. The events connected with Dame Eleanor in the second part really took place some years before the opening of the play. With this exception the events generally follow in historical order.

**King Henry the Eighth** was first published in the folio of 1623. It is supposed to have been written in 1612 or 1613, last of all the plays, after Shakspeare had left the theatre. It is mentioned under the present title, and also under that of "All is True," as having been on the stage the night the Globe Theatre was burned, June 26, 1613, the fire having been caused by the discharge of some chambers during the play. Sir Henry Wotton speaks of it in this connection as a new play. The material is taken from the "Chronicles" of Holinshed and Stowe, and from Foxe's "Acts and Monuments of the Church." Some critics think they find evidence that Fletcher had a hand in the writing of the play. The action covers the period from 1521 to 1533. Some of the events are moved from their actual sequence in the history, as the death of Katherine, which took place in 1536. The prologue and epilogue are generally believed to be the work of another hand. See HENRY VIII.

**King John**, the earliest of the historic dramas as to the period of action, was written probably later than *Richard II.*, *Richard III.*, and *Henry VI.* The date assigned for the writing is 1595. The first known drama founded on the reign of John is "The Pageant of Kynge Johan," by Bishop Bale, supposed to have been written in the reign of Edward VI. It has a distinct religious purpose, being full of ferocious anti-popish bigotry, and it introduces among real historical characters allegorical figures, such as Treason, Verity, England, Sedition, after the fashion of the old moralities. This play was succeeded by "The Troublesome Reign of King John," published in 1591 and by a few critics supposed to be from Shakspeare's hand. Upon it the present play is founded. *King John* follows the truth of history less closely than the other English historical plays: the king's unpopularity and troubles are made to result from his treatment of Arthur: Constance is represented as a widow and living at the time Arthur fell into the hands of John (see CONSTANCE); and the Archduke of Austria and the Viscount of Lymoges are united in the same person (see AUSTRIA); the imprisonment and death of Arthur are represented as taking place in England instead of France; the quarrel between John and the Pope is ante-

dated by several years. Most of these departures from fact were in the older play. See JOHN.

**King Lear**, one of the greatest of the tragedies, was first published in 1608, three editions having appeared in that year. The evidence points to the year 1605 as the date of writing. The story of Lear was first told, so far as is known, by Geoffrey of Monmouth, who wrote a history of Britain in the twelfth century. Holinshed also tells it, and there was an older play on the subject which was published in 1594. The story is also told in Higgins's "Mirror for Magistrates" and Spenser's "Faerie Queene." The part of Gloucester and his sons Shakspeare found in Sidney's "Arcadia," "The Paphlagonian Unkind King." The time of action is about 800 B. C., the date given by Geoffrey of Monmouth. See LEAR.

"This firm faith in filial piety, and the giddy anarchy and whirling tumult of the thoughts at finding this prop failing it, the contrast between the fixed, immovable basis of natural affection and the rapid, irregular starts of imagination, suddenly wrenched from all its accustomed holds and resting-places in the soul—this is what Shakspeare has given, and what nobody else could give."—HAZLITT.

"So ends King Lear, the most stupendous of the Shakspearean dramas; and Kent, the noblest feature of the conceptions of his divine mind. This is the magnanimity of authorship, when a writer, having a topic presented to him, fruitful of beauties for common minds, waives his privilege and trusts to the judicious few for understanding the reason of his abstinence. What a pudder would a common dramatist have raised here of a reconciliation-scene, a perfect recognition between the assumed Caius and his master!—to the suffusing of fair eyes and the moistening of cambrie handkerchiefs. The old, dying king partially catching at the truth, and immediately lapsing into obliviousness, with the high-minded carelessness of the other to have his services appreciated, as one that—

‘Served not for gain,  
Or followed out of form’—

are among the most judicious, not to say heart-touching, strokes in Shakspeare."—CHARLES LAMB.

**King Richard the Second**, second of the historical plays as to the period of action, was written before *King John*, and perhaps earlier than any other of the histories except *I. Henry VI.*—that is, in 1593 or 1594. The play was first published in 1597, a second edition appeared in 1598, and in 1608 a third, with the following added to the title: "With new additions of the Parliament secane and the deposing of King Richard." The additions were in *iv. 1*, one hundred and sixty-four lines. There is evidence that they were originally in the play; and they were presumably omitted in deference to Elizabeth, who was sensitive on the subject of the deposition of sov-

ereigns. There were two other plays on the same subject, but the source from which Shakspeare drew was Holinshed's "Chronicles." There are some few departures from fact in the play, mostly in the age of the characters. The queen, for instance, was but nine years old at the time of Bolingbroke's banishment (1398); John of Gaunt, spoken of repeatedly as a very old man, was fifty-eight; Prince Henry was but eleven (*v. 3*); and Norfolk was but thirty when he speaks (*i. 3*) of "the language I have learned these forty years." The period of action is from September, 1398, to February, 1400. The scene is in different parts of England and in Wales. See RICHARD II.

"In itself, and for the closet, I feel no hesitation in placing it as the first and most admirable of all Shakspeare's purely historical plays. . . . But, however unsuited to the stage this drama may be, God forbid that even there it should fall dead on the hearts of jacobinized Englishmen! . . . For the spirit of patriotic reminiscence is the all-permeating soul of this noble work."—COLERIDGE.

**King Richard the Third**, the best known and most popular of the histories, was first published in 1597, and is held to have been written about 1592-'94, directly after *Henry VI*. In the opinion of some critics, Marlowe had a hand in its production. The facts were drawn from the "Chronicles" of Holinshed and Hall. There were two older plays on the subject, one in English, "The True Tragedie of Richard the Third," and one in Latin by Thomas Legge, "Richardus Tertius;" but Shakspeare took nothing from them. The play takes up English history where *III. Henry VI*. leaves it, after the battle of Tewksbury in 1471, and brings it to that of Bosworth and the fall of Richard in 1485. Although far from being one of Shakspeare's best plays, *Richard III*. has always been popular, especially on the stage—where, however, Colley Cibber's version has usually been given—from the singular and intense character of the king and the rapid action of the plot. By the English of Elizabeth's time it was especially liked, because it brought in the first Tudor king as the saviour of his country. See RICHARD III.

If so, the passage must have been inserted some time after the play was first presented. Another meaning has been suggested—namely, these knights will be degraded, "hack" being the term for taking off a knight's spurs.

He dies by his own treacherous weapons, *v. 2.*

"Yet I acknowledge that Shakspeare evidently wishes, as much as possible, to spare the character of Laertes—to break the extreme turpitude of his consent to become an agent and accomplice of the king's treachery; and to this end he reintroduces Ophelia at the close of this scene to afford a probable stimulus of passion in her brother."—COLERIDGE.

"And Laertes, who takes violent measures at the shortest notice to revenge *his* father's murder, is in another way a contrast [to Hamlet]; but Laertes is the young gallant of the period, and his capacity for action arises in part from the absence of those moral checks of which Hamlet is sensible."—DOWDEN.

**Lafeu**, an old lord in *All's Well that Ends Well*, introduced in *i. 1*, courtier-like and wordy, characterized by the king's words in *ii. 1*, "Thus he his special nothing ever prologues," but sound, true, and of quick discernment, the first to discover the true character of Parolles (*ii. 3*), "So, my good window of lattice, fare thee well; thy casement I need not open, for I look through thee."

**Lear**, King of Britain, according to Geoffrey of Monmouth, about 800 years before Christ. In *King Lear*, i. 1, he divides his kingdom according to the professions of love to him made by his daughters. Of his character, as revealed in this scene, Coleridge says:

"The strange, yet by no means unnatural, mixture of selfishness, sensibility, and habit of feeling derived from and fostered by the particular rank and usages of the individual; the intense desire of being intensely beloved—selfish, and yet characteristic of the selfishness of a loving and kindly nature alone; the self-supportless leaning for all pleasure on another's breast; the craving after sympathy with a prodigal disinterestedness, frustrated by its own ostentation and the mode and nature of its claims; the anxiety, the distrust, the jealousy which more or less accompany all selfish affections, and are among the surest contradistinctions of mere fondness from true love, and which originate Lear's eager wish to enjoy his daughters' violent professions, while the inveterate habits of sovereignty convert the wish into claim and positive right, and an incomppliance with it into crime and treason—these facts, these passions, these moral verities, on which the whole tragedy is founded, are all prepared for, and will to the retrospect be found implied in the first four or five lines in the play. They let us know that the trial is but a trick; and that the grossness of the old king's rage is in part the natural result of a silly trick suddenly and most unexpectedly baffled and disappointed."

Lear disowns Cordelia, i. 1; is criticised by the other daughters at the end of the same scene; leaves Goneril's house in a passion, i. 4; leaves Regan's, ii. 4; on the heath, iii. 2, 4, 6; his madness, iv. 6; v. 3; his death, v. 3.

**Love's Labour's Lost**, one of the earliest, if not the very earliest, of the comedies, the date commonly assigned to it being the poet's twenty-fifth year. It was first published in 1598 in an edition "corrected and augmented." Shakspeare's work on *Titus Andronicus* is alone thought to be earlier than this in its original form. No play or story is known on which this comedy could have been founded. Editors have discovered only a passage in Monstrelet, concerning a negotiation between the Kings of Navarre and France, by which Navarre gave up the castle of Cherbourg, the county of Evreux, and all the other lordships he possessed within the kingdom of France,

and received the duchy of Nemours and two hundred thousand gold crowns. The scene is Navarre. Coleridge says of the play :

"The satire is chiefly on follies of words. . . . The frequency of the rhymes, the sweetness as well as the smoothness of the metre, and the number of acute and fancifully illustrated aphorisms, are all as they ought to be in a poet's youth. True genius begins by generalizing and condensing; it ends in realizing and expanding."

“In this poem [‘Venus and Adonis’] and ‘The Rape of Lucrece’ Shakspeare gave ample proof of his possession of a most profound, energetic, and philosophical mind, without which he might have pleased, but could not have been a great dramatic poet.”

**Macbeth** is a drama sometimes placed first among the histories, but usually with the tragedies. It was included in the folio of 1623; the earliest known allusion to it was made in 1610; and the date of writing is placed between 1604 and 1610. The story is given mainly as it appears in Holinshed's "Chronicles." The circumstances of the assassination are found in Holinshed's account of the murder of

King Duff by Donwald and his wife in their castle at Fores. The time of the historical action is from 1039 to 1057; but Shakspeare has crowded the events together for dramatic effect. Many castles are designated as the one in which Macbeth killed Duncan. Glamis Castle, five miles from Forfar, is one; Cawdor Castle, six miles from Nairn, is another; Fores Castle a third, and Macbeth's castle at Inverness a fourth. In Macbeth's time there were no castles of stone and mortar; timber and sods were the materials used. A castle built of these materials stood on an eminence southeast of Inverness. This was razed by Malcolm Canmore, son of Duncan, and a new one was built on another part of the hill. It was this castle that Dr. Johnson visited in 1773, supposing it to be the identical castle in which Duncan was murdered.

"While in 'Romeo and Juliet' and in 'Hamlet' we feel that Shakspeare now began and now left off, and refined upon or brooded over his thoughts, Macbeth seems as if struck out at a heat, and imagined from first to last with unabated fervour. It is like a sketch by a great master in which everything is executed with rapidity and power, and a subtlety of workmanship which has become instinctive."—DOWDEN.

**Macbeth**, King of Scotland, is introduced in *i. 3* of the play, in the scene on the witches' heath; murders Duncan, *ii. 1*, and is made king; causes Banquo to be murdered, *iii. 1*; and Macduff's family, *iv. 1, 2*; meets the English army at Dunsinane, *Act v.*, and is slain by Macduff, *v. 8*. As a matter of fact, he was not killed at Dunsinane, but at Lumphanan two years later, in 1057. He is described by his wife in the fifth scene of the first act; his ambition has to contend with conscientious scruples; "What thou wouldst highly, that wouldst thou holily;" he is "too full of the milk of human kindness to catch the nearest way." These in the beginning are very nearly balanced; he dwells on the prophecy and the means by which he might realize it; on the other hand, he dwells on Duncan's character and the honours he had received from him. The scale inclines to the side of right, when his wife's influence is again exerted, and Duncan's death is resolved upon. Struggling with remorse of conscience, he confuses it, as Coleridge says, with the feeling of insecurity, and plunges into more crime in order to make himself safe in the results of the first. But his is not a character to be contented or happy in infamy; his conscience and his imagination work upon him till he is as if driven on by an irresistible fate, having "stepped so far in blood that returning were as tedious as going over." So possessed is he with despair, that the news of

his wife's death only draws from him the philosophy of hopelessness:

“And all our yesterdays have lighted fools  
The way to dusty death.”

“Although it is difficult to separate the Macbeth of history from the Macbeth of Shakspeare and tradition, he appears to have ruled Scotland well, and to have benefited the church in no small degree.”  
—DICTIONARY OF ENGLISH HISTORY.

**Macbeth**, Lady, character in *Macbeth*, introduced in *i. 5*, where she promptly plans the murder of Duncan on hearing that he is to sleep at her house; spurs on Macbeth to it, *i. 7*; places the daggers by the guards, *ii. 2*; in the banquet scene, *iii. 4*; in the sleep-walking scene, *v. 1*; the doctor's report, *v. 3*; her death, *v. 5*. The wife of Macbeth in history was the Lady Guroch, granddaughter of Kenneth IV., and was a widow before her marriage with Macbeth.

“Lady Macbeth is of a finer and more delicate nature [than Macbeth]. Having fixed her eye upon an end—the attainment for her husband of Duncan's crown—she accepts the inevitable means; she nerves herself for the terrible night's work by artificial stimulants; yet she cannot strike the sleeping king who resembles her father. Having sustained her weaker husband, her own strength gives way; and in sleep, when her will cannot control her thoughts, she is piteously afflicted by the memory of one stain of blood upon her little hand.”—DOWDEN.

**Maidenhood**, *Midsummer-Night's Dream*, *ii. 1*. See ELIZABETH. It has also been supposed that the "little western flower" may refer to Lettice, Countess of Essex, with whom Leicester carried on an intrigue during her husband's absence in Ireland. The "mermaid on a dolphin's back," once interpreted as referring to Mary Queen of Scots, is now known to refer to a part of the exhibition given by Leicester at Kenilworth for Elizabeth's entertainment, in 1575, a mermaid on a dolphin's back with shooting fires.

He is represented as able and brave, though cautious and prudent; and this seems to have been the character of Malcolm III. in history, whose reign extended from 1058 to 1093. Canmore signifies "Great Head."

She dressed in man's clothing, and was the heroine of a play by Middleton and Dekker, "The Roaring Girl," which was acted at the Fortune Theatre and was published in 1611. Her real name was Mary Frith, and her chief

exploit was the robbery of General Fairfax on Hounslow Heath, for which she was sent to Newgate.

**Malvolio**, Olivia's steward in *Twelfth Night*, introduced in *i.* 5. He is a fool of the solemn pompous order, conceited and Pharisaical. His puritanical precision incites the conspirators in the household to play their cruel practical jokes upon him, to which his conceit makes him fall an easy prey.

**Mamilius**, the little prince in *A Winter's Tale*, introduced in *i.* 2; his talk with the queen's ladies, *ii.* 1; his illness, *ii.* 3; his death in consequence of his mother's disgrace, *iii.* 2.

"And to the very end I must confess that I have in me so much of the spirit of Rachel weeping in Ramah as will not be comforted because Mamilius is not. It is well for those whose hearts are light enough to take perfect comfort in the substitution of his sister Perdita for the boy who died of 'thoughts high for one so tender.' Even the beautiful suggestion that Shakspeare as he wrote had in mind his own dead little son still fresh and living at his heart, can hardly add more than a touch of additional tenderness to our perfect and piteous delight in him."—SWINBURNE.

**Manner**, born to the, *Hamlet*, *i.* 4. The persistent miswriting of this word in the familiar quotation (making it *manor*) arises from a neglect to consider the context, and also from ignoring the fact that Hamlet was born, not to a manor, but to a whole kingdom.

**Manners**, of the court, in the country, *As You Like It*, *iii.* 2; rude, *Twelfth Night*, *iv.* 1; defect of, *I. Henry IV.*, *iii.* 1.

**Margaret of Anjou**, queen of Henry VI., and daughter of Regnier (René), King of Naples, Sicily, and Jerusalem, character in the three parts of *Henry VI.* and in *Richard III.*, first appearing in *I. Henry VI.*, *v. 3*, where Suffolk has captured and fallen in love with her, and forms the plan of marrying her to Henry VI. The betrothal follows in *v. 5*. Her contempt for the king is expressed in the second part, *i. 3*, as well as her jealousy of the Duchess of Gloucester, to whom she gives in this scene a box on the ear; her affection for Suffolk, *iii. 2*. In the third part, *i. 1*, she resolves to raise an army, in her wrath at Henry for disinheriting their son. She defeated the Yorkists at Wakefield, *i. 3-5*, where York was slain, but suffered defeat at Mortimer's Cross, Towton, *ii. 3-6*, Barnet, *v. 2, 3*, and lastly at Tewksbury, *v. 4, 5*, where her son was killed. The Margaret of the play is coarse, fierce, revengeful, unprincipled. But her love for Suffolk is not in history, neither is there sufficient evidence that she had a hand in Gloucester's death, nor any that she stabbed York. She was confined in the Tower from 1471 to 1475, when she was ransomed by Louis XI., and lived in France till her death in 1482. It is therefore contrary to history to introduce her in the reign of Richard, which began in 1483; but her presence is dramatically effective, as she appears only to curse and watch with greedy eyes for the fulfilment of her curses, *Richard III.*, *i. 3*; *iv. 4*.

**Measure for Measure**, first published in 1623, is referred to the period that produced the greater plays, *Julius Cæsar*, *Hamlet*, *Othello*, *Macbeth*, and *King Lear*, and is supposed to have been written about the year 1603. The plot, originally from a story in the "Heccatomithi" of Giraldi Cinthio, was the foundation of a play, "Promos and Cassandra," published in 1578, by George Whetstone, who afterward translated the Italian story for his "Heptameron of Civil Discourses," 1582. The most notable change made by Shakspere in the plot was the introduction of the character of Mariana, thus doing away with a repulsive feature of the old plot, the marrying of Isabella (Cassandra) to Angelo (Promos). Notwithstanding the repellent story and the disgusting nature of most of the humour, this is in many respects a very noble play—in the general tone of thought in the serious scenes, the strength and purity of Isabella's character, the subtlety with which Angelo's is drawn, and the beauty of single passages. The scene is laid in Vienna, at about the year

1485, the date being fixed by the allusion to Corvinus, King of Hungary, in *i. 2*, who in that year took Vienna. Cinthio lays the scene in Innsbruck; Whetstone in Julio, Hungary.

**Merchant of Venice**, the, a comedy known to have been acted before 1598, and probably the same as "The Venesyon Comedy," acted August 25, 1594. The internal indications are that it was written as early as the latter year, though the date has been placed as late as 1596. It was first published in 1600. No earlier tale or play is now known that unites the two stories contained in this

play—that of the pound of flesh and that of the three caskets. But one Stephen Gosson, who published his "School of Abuse" in 1579, mentions a play, "The Jew," which represented "the greediness of worldly chusers, and bloody minds of usurers." So that Shakspeare may have taken his plot directly from this forgotten drama. Both of the stories are very old. That of the pound of flesh, Mr. Collier says, is unquestionably of Oriental origin. It was told by Giovanni Fiorentino in 1378 in a collection of tales, "Il Pecorone," the circumstances very much resembling those of the play; in the "Orator," by Alexander Silvayn, translated into English in 1598, and in some old ballads, "The Northern Lord" and "Gernutus, the Jew of Venice." The story of the three caskets is in the Greek romance of "Barlaam and Josephat," about 800; and was again told in the "Gesta Romanorum," translated in 1577, where the story is entitled "Ancelmus the Emperour." The time of action is Shakspeare's own day; the scene, Venice and Portia's house at Belmont, somewhere on the Continent, probably. The name Belmont is the same used in the story from "Il Pecorone."

**Mercutio**, friend of Romeo, first appears in *i.* 4. In *iii.* 1 he is slain by Tybalt, who has been seeking a quarrel with Romeo. See **ROMEO**.

"Wit ever wakeful, fancy busy and procreative as an insect, courage, an easy mind that, without cares of its own, is at once disposed to laugh away those of others, and yet to be interested in them—these and all congenial qualities, melting into the common copula of them all, the man of rank and the gentleman, with all its excellences and its weaknesses, constitute the character of Mercutio!"—**COLERIDGE**.

**Merriman**, a hunting-dog, *Taming of the Shrew*, induction, 1.

**Merry Wives of Windsor**, *The*, a comedy written as we have it probably between 1598 and 1601, though an allusion in iv. 3 has led some to suppose that it was written in or soon after 1592, because then free post-horses were given, by order of Lord Howard, to a German duke who passed through Windsor. There is no reason, however, for supposing that the event might not have been alluded to several years after its occurrence. A plausible explanation is that the play, in an early form which has come down to us, was written at the former date; while the amended form was later, perhaps even after the accession of James I. (See KNIGHTS.) One John Dennis, who remodelled the play in 1702 for the stage, says in the dedication that it was written in fourteen days at the request of Queen Elizabeth; and another writer adds that it was because she wished to see Falstaff as a lover. The plot is not known to have been drawn from any other, though some of the incidents had been used before. That between Falstaff and Ford in disguise is said to be in Fiorentino's "Art of Loving," and in Straparola's "Ring." The time is probably before the death of Henry IV., since Falstaff is spoken of as being still in favour at court. There has been considerable controversy, both as to the time when this play was written, and as to its place in the series that include the characters of Falstaff, Mrs. Quickly, Pistol, Nym, and Bardolph. Difficulties are met with under every supposition possible. Some, but few, have supposed the Falstaff of the *Merry Wives of Windsor* not to be the

same as the Falstaff of the historical plays, who, as is well known, was at first called Oldcastle. There is more reason to suppose that there are two Mistress Quicklys. The question is of little importance.

**Midsummer-Night's Dream**, A, a comedy in which three sets of actors appear—the Duke of Athens and his friends, the Athenian handicraftsmen, and the fairy-people. It was first published in 1600, but was mentioned in 1598, and is thought to have been written between 1594 and 1598, and by some authorities even as early as 1592. Possibly some other dramatist assisted Shakspeare in the scenes between the lovers. The life of Theseus in Plutarch may have given some suggestions for the play; and for the part of the fairies some hints may have been furnished by a little book mentioned under Puck. The scene of the action is ostensibly Athens, and the time three days, ending at midnight of the 1st of May; but time and place are entirely disregarded.

“The epilogue expresses satisfaction if the spectator will regard the piece as a dream: for in a dream time and locality are obliterated; a certain twilight and dusk is spread over the whole. . . . We have before said that the piece appears designed to be treated as a dream; not merely in outer form and colouring, but also in inner signification. The errors of that blind intoxication of the senses, which form the main point of the play, appear to us to be an allegorical picture of the errors of a life of dreams.”—GERVINUS.

**Miranda**, the heroine of *The Tempest*, one of the most exquisite characters in the dramas. Brought up away from society and with no teacher but her father, she is natural, unconventional, but full of native grace and dignity.

"She is one of those quiet natures whose mental worth is closed as within a bud, whose depth of character is hidden, like the fire of the diamond, until the occasion comes which strips off the concealing husk, and reveals the richness and splendour of the inner life. Reared in solitude, she is like a blank leaf as regards all social gifts and conventional accomplishments. She is quiet and of few words, but her fancy is full of inward life and playfulness, and her pure soul uninjured by intercourse with mankind."

"I do not know a more wonderful instance of Shakspeare's mastery in playing a distinctly rememberable variety on the same remembered air, than in the transporting love-confessions of Romeo and Juliet and Ferdinand and Miranda. There seems more passion in the one and more dignity in the other; yet you feel that the

sweet girlish lingering and busy movement of Juliet, and the calmer and more maidenly fondness of Miranda, might easily pass into each other."—COLERIDGE.

"lift the down-trod Mortimer  
As high i' the air as this unthankful king."

The Mortimer that was Earl of March was in reality not the one that was Glendower's son-in-law. The latter was Sir Edmund Mortimer, uncle of the young Earl of March, who had a claim to the crown, and is the Earl of March in *I. Henry VI.* Mortimer in the play is a rather contemptible character, unwilling to do anything for himself, and basely failing at the critical moment.

**Mortimer**, Edmund, Earl of March, character in *I. Henry VI.*, first appears in ii. 5. **Much Ado about Nothing**, a comedy first published in 1600, and probably written in that or the previous year. The plot, so far as regards Hero and Claudio, had already been used by Ariosto, in the story of Ariodante and Ginevra, in the fifth canto of "Orlando Furioso," by an English playwright, who dramatized Ariosto's story, by Spenser in the "Faerie Queene," and by Bandello in his story "Timbreo di Cardona," translated by Belleforest into French. The last-named was probably the one used by Shakspeare, who united with the serious plot the parts of Benedick and Beatrice. The scene is laid in Messina. Mr. White thinks that a pun is intended in the title of the play on *noting* and *nothing*, pronounced very much alike in Shakspeare's time. The people in the play make much ado about noting—that is, watching one another—while at the same time much ado is made about the scandal regarding Hero, which rests on a basis of nothing. This is one of the most popular of the comedies, both for reading and for stage representation.

At Shrewsbury he is "crafty-sick," and fails to go to the aid of his son and allies: In *II. Henry IV.* he again fails his allies, and the rebellion is quelled. Warwick says [*Part II., iii. 1*]:

"King Richard might create a perfect guess,  
That great Northumberland, then false to him,  
Would, of that seed, grow to a greater falseness."

"It is Northumberland, now smooth and flexible, now rough and unfeeling, that first speaks of Richard with the omission of his title; he it is that repeats more solemnly and forcibly the oath of Bolingbroke that his coming is but for his own: he it is who, in the scene of deposition, maliciously torments Richard with the reading of his accusation; and he it is who would arbitrarily arrest the noble Carlisle for high treason after the outbreak of his feelings of right and his civic fidelity."—GERVINUS.

**Oldcastle**, Sir John, was the name first given to Falstaff, as it was the name of the character in the old play that furnished the hint for him. It was changed because it was taken to be intended for a real Sir John Oldcastle, who had been page to the Duke of Norfolk (said of Falstaff in *II. Henry IV.*, *iii.* 2), and was afterward, as Lord Cobham, a Lollard or Wickliffite, who fell a martyr to his faith. The Protestants were scandalized and the Catholics gratified by the supposed portrait of the Lollard martyr. Shakspeare then changed the name, and in the epilogue to *II. Henry IV.* says, speaking of Falstaff, "For Oldcastle died a martyr, and this is not the man." In *I. Henry IV.*, *i.* 2, the prince calls him "my old lad of the castle."

**Oliver**, a character in *As You Like It*, elder brother of Orlando, appears in the first scene. He strives to plunder his brother of his poor inheritance; he undermines his education and gentility; he first endeavors to stifle his mind, and then he lays snares for his life; all this he does from an undefined hatred of the youth who, he is obliged to confess, is 'full of noble device,' but who, for this very reason, draws away the love of all his people from Oliver to himself, and on this account excites his envious jealousy." On Orlando's saving his life, he "experiences a sudden change of heart, and proposes to give up all his possessions to Orlando, marry the supposed shepherdess Aliena, and live and die a shepherd."

"Whenever we bring her to mind, it is with the same exclusive sense of her real existence, without reference to the wondrous power that called her into life. The effect—and what an effect!—is produced by means so simple, by strokes so few and so unobtrusive, that we take no thought of them. It is so purely natural and unsophisticated, yet so profound in its pathos, that, as Hazlitt observes, it

takes us back to the old ballads; we forget that, in its perfect artlessness, it is the supreme and consummate triumph of art. . . . As the character of Hamlet has been compared, or rather contrasted, with the Greek Orestes, being like him called on to avenge a crime by a crime, tormented by remorseful doubts, and pursued by distraction, so, to me, the character of Ophelia bears a certain relation to that of the Greek Iphigenia, with the same strong distinction between the classical and the romantic conception of the portrait. Iphigenia led forth to sacrifice, with her unresisting tenderness, her mournful sweetness, her virgin innocence, is doomed to perish by that relentless power which has linked her destiny with crimes and contests in which she has no part but as a sufferer; and even so poor Ophelia, 'divided from herself and her fair judgment,' appears here like a spotless victim offered up to the mysterious and inexorable Fates." —MRS. JAMESON.

**Orpheus**, the lute of, *Two Gentlemen of Verona*, *iii.* 2; legend of, *Merchant of Venice*, *v.* 1; song, *Henry VIII.*, *iii.* 1; playing of, *Lucrece*, *l.* 553. A traditionary poet, musician, and philosopher of Greece, whose skill at the lyre was such that the wild beasts of the forests gathered around him to hear his playing. In his grief at the loss of his wife, Eurydice, he determined to descend to Hades to induce the powers there to release her. The music of his lyre so charmed the deities of the lower world that they agreed to let Eurydice follow him to the upper world, on condition that he should not look back on her till they had passed the borders of Hades. But he could not keep the condition, and she vanished.

**Orsino**, Duke of Illyria, character in *Twelfth Night*, introduced in the first scene, in love at first with Olivia after a sentimental and unconsciously insincere fashion, but of a refined and lovable nature—

“Of great estate, of fresh and stainless youth,

In voices well divulged, free, learned, and valiant.”

**Orthography**, rackers of, *Love's Labour's Lost*, *v.* 1.

**Osprey**, the, *Coriolanus*, *iv.* 7. Allusion to a supposed fascination the osprey exercised over fish.

**Osric**, a courtier, character in *Hamlet*, appears in *v.* 2. His affected manner, which is ridiculed by Hamlet and Horatio, is probably a satire on the foppish gallants of Shakspeare's own time.

**Ossa**, *Hamlet*, *v.* 1. A mountain in Thessaly, one of those that the giants were said to have piled upon Olympus in their war with the gods, in order to reach heaven.

**Ostent** (appearance, display), *Merchant of Venice*, *ii.* 2, 8.

"The only character of utter, irredeemable baseness in Shakspeare."—COLERIDGE.

**O that you were yourself, *Sonnet xiii.***

**Othello**, is introduced in the second scene of the play; his defence before the senate, *i. 3*; in Cyprus, *ii. 1*; his jealousy aroused, *iii. 3*; confirmed, *iv. 1*; kills Desdemona and himself, *v. 2*.

"He is of a free and noble nature, naturally trustful, with a kind of grand innocence, retaining some of his barbaric simpleness of soul in midst of the subtle and astute politicians of Venice. He is great in simple heroic action, but unversed in the complex affairs of life, and a stranger to the malignant deceits of the debased Italian character."—DOWDEN.

"The noblest man of man's making."—SWINBURNE.

"Between Iago and Othello the position of Desdemona is precisely that defined with such quaint sublimity of fancy in the old English by-word, 'Between the devil and the deep sea.' Deep and pure and strong and adorable always, and terrible and pitiless on occasion as the sea, is the great soul of the glorious hero to whom she has given herself: and what likeness of man's enemy, from Satan down to Mephistopheles, could be matched for danger and for dread against the good, bluff, soldierly, trustworthy figure of honest Iago?"—SWINBURNE.

**Othello, the Moor of Venice.** This play was first published in 1622, though it had been on the boards for years, and was a favourite play. The first authentic mention of it is in a diary kept by one Wurmsser, who was in the suite of the Duke of Würtemberg when he visited England in 1610. The allusion to the new heraldry in *iii. 4* is to the new order of baronetage established by the king in 1611, a red hand being on the arms of the order. But this may have been introduced long after the play was written. It is generally agreed that it is of the same period as *Hamlet*, *Macbeth*, and *King Lear*. The source whence Shakspeare drew the outline of the plot and the name of the heroine was an Italian story by Giraldo Cinthio, published in 1565. The time of the play is the year 1570, when Cyprus was invaded by the Turks.

"The picturesque contrasts of character in this play are almost as remarkable as the depth of the passion. The Moor Othello, the gentle Desdemona, the villain Iago, the good-natured Cassio, the fool Roderigo, present a range and variety of character as striking and palpable as that produced by the opposition of costumes in a picture."—HAZLITT.

"Pandarus, in Chaucer's story, is a friendly sort of go-between, tolerably busy, officious, and forward in bringing matters to bear: but in Shakspeare he has 'a stamp exclusive and professional'; he wears the badge of his trade; he is a regular knight of the game. The difference of the manner in which the subject is treated arises perhaps less from intention, than from the different genius of the two poets. There is no *double entendre* in the characters of Chaucer; they are either quite serious or quite comic. In Shakspeare the ludicrous and ironical are constantly blended with the stately and impassioned."—HAZLITT.

"The well-meaning bridegroom, who thinks that he has loved Juliet right tenderly, must do something out of the common way; his sensibility ventures out of its every-day circle, though fearfully, even to the very borders of the romantic. And yet how far different are his death-rites from those of the beloved! How quietly he scatters his flowers! Hence I cannot ask: 'Was it necessary that this honest soul, too, should be sacrificed? Must Romeo a second time shed blood against his will?' Paris belongs to those persons whom we commend in life, but do not immoderately lament in death; at his last moments he interests us especially by the request to be laid in Juliet's grave. Here Romeo's generosity breaks forth, like a flash

of light from darksome clouds, when he utters the last words of blessing over one that has become his brother by misfortune."—SCHLEGEL.

**Passionate Pilgrim**, The, the name given to a collection of poems usually included in Shakspeare's works, though many of them are known not to be from his hand. They were collected and printed with his name in 1599 by a piratical publisher. Of the poems composing it, five are known to be Shakspeare's—namely, those beginning, "When my love swears," "Two loves I have," "Did not the heavenly," "If love make me forsworn," "On a day, alack the day," the first two of which are in the *Sonnets* (*xxxviii.* and *cxliv.*), and the others in *Love's Labour's Lost*, published in 1598. Two of them are by Richard Barnfield, those beginning, "If music and sweet poetry," "As it fell upon a day." The one beginning, "Live with me and be my love," is by Marlowe; and the answer, "If that the world," is generally attributed to Raleigh. No. *xviii.*, "My flocks feed not," is from Weelkes's "Madrigals," published in 1597. The authorship of the others is doubtful. Swinburne says of them:

"The rest of the ragman's gatherings [excepting the poems from Shakspeare], with three most notable exceptions [Marlowe's and Barnfield's], is little better, for the most part, than dry rubbish or disgusting refuse; unless a plea may haply be put in for the pretty commonplaces of the lines on a 'sweet rose, fair flower,' and so forth; for the couple of thin and pallid, if tender and tolerable, copies of verse on 'Beauty' and 'Good-Night,' or the passably light and lively stray of song on 'Crabbed age and youth.'"

The second title given to the latter part of the collection, "Sonnets to Sundry Notes of Music," was in the original.

"Such are some of the words that boil over from the stout heart of Paulina, the noblest and most amiable termagant we shall anywhere find, when, with the new-born babe in charge, she confronts the furious king. He threatens to have her burnt, and she replies instantly :

" ' I care not ;  
It is an heretic that makes the fire,  
Not she which burns in't.' "

If her faults were a thousand times greater than they are, I could pardon them all for this one little speech ; which proves that Shakspere was, I will not say a Protestant, but a true Christian intellectually, at least, and far deeper in the spirit of his religion than a large majority of the Church's official organs were in his day, or, let me add, have been any day since. . . . With a head to understand and a heart to reverence such a woman [Hermione], she unites a temper to fight and a generosity to die for her. . . . Loud, voluble, violent, and viraginous, with a tongue sharper than a sword, and an eloquence that fairly blisters where it hits, she has, therewithal, too much honour and magnanimity and kind feeling either to use them without good cause, or to forbear using them at all hazards when she has such cause."—HUDSON.

**Pericles**, Prince of Tyre, a drama first published in 1609; it was not included in the folio of 1623. Some critics suppose it to be the joint production of Shakspeare and another or others; that the first three acts were not his, and that this accounts for its omission from the folio. Others think he wrote it at an early period, and rewrote the better part in his maturer years. It is known to have been very popular on the stage. The plot is taken from an old story in the "Gesta Romanorum," translated into Anglo-Saxon, and afterward into English (1576), by Lawrence Twine, under the title, "The Pattern of Painful Adventures." Gower rendered it into English verse, and included it in his "Confessio Amantis." The play is apparently from the version of Gower, who appears as chorus in it. Apollonius is the name of the prince in those versions; and it has been conjectured that Pericles is a form for Pyrocles, name of the hero of Sid-

ney's "Arcadia," published in 1590; the more so, as the character in the play, and some of the incidents and ideas, resemble those of Sidney's work. The period of action extends over from fifteen to twenty years. The play as a whole is not regarded as of any great value, but portions of it are in Shakspeare's best manner. "No poetry of shipwreck and the sea has ever equalled the great scene of 'Pericles;' no such note of music was ever struck out of the clash and contention of tempestuous elements."

**Pericles**, Prince of Tyre, introduced in the first scene of the drama, where he solves the riddle of Antiochus, who seeks his life in revenge, and he, by the advice of Helicanus, goes away to travel; relieves Tharsus, *i. 4*; is shipwrecked, *ii. 1*; victor in a joust, *ii. 3*; marries Thaisa, *ii. 5*; is wrecked a second time, *iii., prologue*; finds his daughter, *v. 1*; his wife, *v. 3*.

"His depth of soul and intellect, and a touch of melancholy, produce in him that painful sensitiveness, which indeed, as long as he is unsuspecting, leaves him indifferent to danger; but, after he has once perceived the evil of men, renders him more faint-hearted than bold, and more agitated and uneasy than enterprising."—GERVINUS.

It is said that for his prophecy, which was really made in 1213, he was dragged at horses' tails and afterward hanged on a gibbet with his son. **Petrifaction**, *Hamlet*, *iv.* 7 or 4.

**Petruchio**, character in the *Taming of the Shrew*, who marries Katherina the shrew, first appears in *i.* 2.

"Petruchio appears the only rational character of the piece; yet even he is driven, by the pervading folly of all the rest, at least to play the part of a fool, and so becomes ridiculous, even though eventually the laugh is on his side. All the characters except Petruchio and Katherina are sketched with a light touch; the very composition of the piece forbids a nicer and more accurate delineation, and yet Shakspeare has succeeded in giving to all the stamp of individuality. One trait in Katherina's conduct appears false: it is not easy to see how so self-willed and stubborn a disposition could have been so easily persuaded into a marriage with Petruchio. . . . The true motive, evidently, was the surprise and irresistible impression which an energetic mind and manly resolution made upon her. In Petruchio she meets for the first time in her life a man worthy of the name; hitherto she has been surrounded with mere women in male attire. A genuine man she cannot but admire, nay, more, love. The very pride and somewhat overweening energy of her womanly nature is a sufficient reason, psychologically, for her hearty submission."—ULRICI.

He opposes the marriage of his son with the shepherdess, but gives consent when she is found to be the daughter of Leontes, King of Sicily. He first appears in *i. 2*.

**Polonius**, the lord chamberlain in *Hamlet*, first appears in *i. 2*. His advice to his son, *i. 3*, is said to be copied from John Lilly's romance of "Euphues: the Anatomy of Wit," published in 1580; his advice to his daughter, *i. 3*; his death, *iii. 4*. Polonius is officious, confident in his own wisdom and vain of it. "Hamlet's ugly sarcasms seem disproportioned to his offences, which are the harmless folly of an old man, until we remember the annoyance and irritation one experiences when in deep feeling or perplexity, at the confident, self-satisfied, shallow judgment of some worldly-wise person who imagines his system of weights and measures to be infallible."

**Porter**, a, character in *Macbeth*, ii. 3. His speeches are generally attributed to some other hand, though Dowden thinks they show that of Shakspeare. Schiller in his translation substitutes a pious morning hymn for the porter's speech. Coleridge is positive that the actors interpolated the character, and Shakspeare, finding it take with the mob, added the words from "I'll devil-porter it no further." Quite a different view is taken of the part by Ulrici, who says: "But the ordinary and every-day portion of society having been introduced, it must be depicted in complete truth, and therefore also in the comic light which is thrown upon it from its disproportionateness. Even the part of the Porter in *Macbeth*, over whose drunken drowsiness and silly meditations the fearful destiny which is to affect him and his country so deeply sweeps by without a trace, possesses so solemn a seriousness and tends so greatly to heighten the tragic effect that it could on no account be left out."

**Portia**, the heroine of the *Merchant of Venice*, first appears in i. 2. She is, perhaps, in the variety and degree of her fine qualities, the noblest character among Shakspeare's women. Though a child of fortune, she is full of ready sympathy for those who suffer; though impulsive and ardent, her high sense of honour will not permit her to give her lover the slightest hint as to the caskets in the choice that involves her whole happiness; though provided with a decision that will do her intellect the greatest honour in the courtroom, she does not bring it forward until she has done her utmost by womanly persuasion to bring the Jew to relent on considerations of mercy and humanity. She is witty, clear-sighted, generous, elastic in temperament, prompt and decided in action.

**Portia**, wife of Brutus, character in *Julius Cæsar*, first appears in i. 2; her death, iv. 3. Unwilling to be excluded from the counsels of her husband, Portia inflicted a wound upon herself to prove her courage and fortitude. He has acquired magic art by long study, which cost him his throne, for his brother Antonio has taken advantage of his inattention to outside affairs to usurp his throne, and send him and his little daughter to perish at sea. On the island where they are cast he makes use of his magic art to hold in subjection Caliban and the spirits of the air. Though a fine and noble character, and a most loving and tender father, Prospero repels us by his severity with Ariel; but this severity we excuse on further study of the airy spirit. See **ARIEL**.

"Prospero, the great enchanter, is altogether the opposite of the vulgar magician. With command over the elemental powers, which study has brought to him, he possesses moral grandeur and a command over himself, in spite of occasional fits of involuntary abstraction and of intellectual impatience; he looks down on life, and sees through it, yet will not refuse to take his part in it. . . . It has been suggested that Prospero, the great enchanter, is Shakspeare himself, and that when he breaks his staff, drowns his book, and dismisses his airy spirits, going back to the duties of his dukedom, Shakspeare was thinking of his own resigning of his powers of imaginative enchantment, his parting from the theatre, where his attendant spirits had played their parts, and his return to Stratford."—DOWDEN.

**Richard I.** (*Cœur de Lion*), King of England from 1189 to 1199, *King John*, i. 1; ii. 1.

**Richard II.**, eighth king of the house of Plantagenet, born 1366, died 1400. He was the son of Edward the Black Prince, and succeeded his grandfather, Edward III., in 1377, at the age of eleven. He is introduced in the first scene of the play that bears his name, where two nobles bring their quarrel before him, and where is presented "the germ of all the after-events in his insincerity, partiality, arbitrariness, and favouritism, and in the proud, tempestuous temperament of his barons." In iv. 1, he resigns the crown and is sent to the Tower; in v. 2, he is killed by Exton. In person Richard is represented as very handsome, having a fair, delicate, and feminine style of beauty; in character he was weak, with an overweening confidence in his divine right and the respect of his subjects for it. He is given to indirect methods and dissimulation, is easily depressed and easily excited with hope and confidence. At the same time the reader's sympathy is aroused by his amiability and by his misfortunes. But in his weakness he had spent his revenues foolishly, and consequently had resorted to extortionate taxes, and even confiscation. Allusions to him in other plays: his unkingly conduct, I.

"The wise Friar Laurence perceived that 'affliction was enamoured' of the susceptible qualities of this deeply agitated and violent nature, and that he was 'wedded to calamity.' . . . Reserved, disdainful of advice, melancholy, laconic, vague and subtle in his scanty words, he shuns the light, he is an interpreter of dreams, his disposition is foreboding, and his nature pregnant with fate."—GERVINUS.

**Romeo and Juliet** was first published in 1597, but the version then printed is supposed to have been rewritten from an earlier one, dating as far back as 1591. The story is very old. Some of the chief incidents appeared in a Greek romance by Xenophon of Ephesus. It was first told in Italian by Luigi da Porto, of Vincenza, who died in 1529. His novel was published six years after his death. It was told again by Bandello, in 1554, and from him translated into French by Boistreau. William Paynter translated the French version into English for his "Palace of Pleasure," 1567. But the story had previously appeared in English verse by Arthur Brooke, 1562. Shakspeare no doubt used both Paynter and Brooke in his play, but it bears a closer resemblance to Brooke's poem, which has considerable merit, than to the other. But Brooke speaks in his preface of having seen the story on the stage not long before; so that there was an English or perhaps Latin play to which Shakspeare and he may both have been indebted. The time is early in the fourteenth century; at least the occurrence on which it is founded is referred to the year 1303, and the events of the play occupy but a few days.

"The enmity of the two families is the hinge on which everything turns; very appropriately, therefore, the representation begins with it. The spectator must have seen its outbreaks himself in order to know what an insuperable obstacle it is to the union of the lovers. The animosity of the masters has rather rude representatives; we

see how far the matter must have gone when those foolish fellows cannot meet without forthwith falling into a quarrel. . . . The reconciliation of the heads of the families over the dead bodies of their children, the only drop of balm left for the torn heart, is not possible except through their being informed as to the course of events. The unhappiness of the lovers is thus not wholly in vain; sprung out of the hatred with which the piece begins, it turns, in the cycle of events, back toward its source, and stops it up forever."—SCHLEGEL.

**Rosalind**, the heroine of *As You Like It*, first appears in the second scene.

"She is fresh as the morning, sweet as the dew-awakened blossoms, and light as the breeze that plays among them. She is as witty, as voluble, as sprightly as Beatrice, but in a style altogether distinct. In both the wit is equally unconscious; but in Beatrice it plays about us like the lightning, dazzling, but also alarming; while the wit of Rosalind bubbles up and sparkles like the living fountain, refreshing all around. Her volubility is like the bird's song; it is the outpouring of a heart filled to overflowing with life, love, and joy, and all sweet and affectionate impulses."—MRS. JAMESON.

**Rosaline**, the wittiest of the ladies attending on the princess in *Love's Labour's Lost*, beloved by Berowne or Biron, first appears in *ii. 1.* She is, perhaps, an earlier sketch of Beatrice.

**Rosaline**, the first fancy of Romeo, spoken of by him and his friends in the earlier part of the play.

"This" [Romeo's love to Rosalind] "has been to many a stumbling-block, and Garrick rejected it in the alteration of the play. To me it appears indispensable; it is like the overture to the musical sequence of moments which all unfold themselves out of that first when Romeo beholds Juliet. Lyrically taken, though not in respect of the action (and its whole charm surely rests on the tender enthusiasm which it breathes), the piece would be imperfect if it did not contain within itself the rise of his passion. But ought we to see him at first in a state of indifference? How is his first appearance exalted through this, that, already removed from the circumstances of cold reality, he walks out the consecrated ground of fancy! The tender solicitude of his parents, his restless pinings, his determined melancholy, his fanatical inclination for loneliness, everything in him announces the chosen one and the victim of love. His youth is like a thunderous day in

spring, when sultry air surrounds the loveliest, most voluptuous flowers. Shall his quick change of mind deprive him of sympathy ? or do we not argue from the instantaneous vanquishment of his first inclination, which in the beginning appeared so strong, the omnipotence of the new impression ?"—SCHLEGEL.

**Rosencrantz**, a courtier in *Hamlet*, introduced in ii. 2. He and Guildenstern were schoolfellows of Hamlet, iii. 4. He calls them "adders fanged," and tells Rosencrantz in iv. 2 that he is a sponge, soaking up the king's favour, rewards, and authorities. They carry the orders concerning Hamlet to England, v. 2, and are themselves sacrificed. It is not expressly told whether the two courtiers knew the nature of the order they carried; but Hamlet's answer to Horatio, v. 2, "They did make love to this employment," implies that they did, or that he thinks they did.

"Though directly they" [Rosencrantz and Guildenstern] "take no part in the action, they are nevertheless willing, for the sake of their personal aggrandizement and influence, to become the guilty instruments of another criminal's design. This subserviency, however, is but another and baser form of thinking and acting only for self, and it is therefore appropriately punished, not by the might of a foreign and hostile volition, but by the capricious sport of trifling contingencies."—ULRICI.

“But the whole charm and beauty of the play, the quality which raises it to the rank of its fellows, by making it lovable as well as admirable, we find only in the ‘sweet, serene, sky-like’ sanctity and attraction of adorable old age, made more than ever near and dear to us in the incomparable figure of the old Countess of Rousillon.”

**Shylock**, the Jew in the *Merchant of Venice*, introduced in *i. 3.* His impassioned appeal in the first scene of the third act, "Hath not a Jew eyes," etc., is the only place where Shakspeare seems to intend arousing the least sympathy for the usurer. In all other scenes his meanness and avarice are dwelt upon almost to the exclusion of his justifiable resentment at the insults to his race. He hates Antonio more for spoiling his business than for reviling his religion; and he would gladly see his only child dead before him if he might regain his ducats. There seems to be no reason to believe that Shakspeare intended any rebuke to the Jew-hating spirit of his time.

"Hebler does not hesitate to call Shylock a comic personage, whose fate, proportionately, is no harder, rather milder, than that which finally befalls other comic characters, Falstaff, for example.

Gervinus is vexed that 'vulgarity and madness could go so far as to make a martyr out of this outcast of humanity.' A martyr he certainly is not, but we must allow extenuating circumstances in his favor. . . . But who made him a usurer? . . . We know no other answer to this question but that the Christians have made Shylock what he is. We do not mean to say that Shakspere intended to hint at anything of the kind, although the temptation to draw such inferences lies nearer in this play than elsewhere in Shakspere. Whether the poet intended it or not, Shylock, in his hands, has become the representative of Judaism in its lowest degradation, and this degradation has undeniably been caused by centuries of political and social bondage."—KARL ELZE.

**Songs and Sonnets**, Book of, *Merry Wives of Windsor, i. 1*. A popular book of the time, by the Earl of Surrey and others.

**Sonnets**, the, one hundred and fifty-four in number, were first published in 1609, in a small quarto. including also the *Lover's Complaint*, by Thomas Thorpe, who probably pirated them. They were alluded to in 1598 by Meres as "sugred sonnets" circulated among Shakspeare's private friends. Two of them were published in the *Passionate Pilgrim (q. v.)*. The time of writing may have extended over several years, and probably did. They are dedicated to W. H., but to whom these initials belonged is still a mystery. William Herbert, Earl of Pembroke, has been named, the first folio having been dedicated to him and his brother. Some have supposed the initials to be those of the Earl of Southampton (*q. v.*) reversed. The first one hundred and twenty-six are addressed to a man much

younger than the writer and deeply beloved by him. The remaining ones, excepting the last two, are addressed to a woman, dark-complexioned, and not at all fair, or, it would seem, virtuous either, who has been trifling with the writer and the friend to whom the former sonnets are addressed. It is generally supposed that they are the record of actual experiences of the poet, though it is possible that they are dramatic and ideal. On this point Mr. Halliwell-Phillips says:

“The words of Meres” [“his sugared sonnets among his private friends”] “and the insignificant results of Jaggard’s efforts” [to make a collection of Shakspeare’s poems, in which he was able to include only two of the sonnets], “lead to the inference that these strange poems were an assemblage of separate contributions made by their writer to the albums of his friends, no two of the latter being favoured with identical compositions. There was no tradition adverse to a belief in their fragmentary character in the generation immediately following the author’s death, as may be gathered from the arrangement found in Benson’s edition of 1640; and this concludes the little real evidence on the subject that has descended to us. It was reserved for the students of the present century, who have ascertained so much respecting Shakspeare that was unsuspected by his own friends and contemporaries, to discover that his innermost earnest thoughts, his mental conflicts, and so on, are revealed in what would then be the most powerful lyrics yet given to the world. But the victim of spiritual emotions that involve criminal reflections, does not usually protrude them voluntarily on the consideration of society; and, if the personal theory be accepted, we must concede the possibility of our national dramatist gratuitously confessing his sins and revealing those of others, proclaiming his disgrace and avowing his repentance, in poetical circulars distributed by the delinquent himself among his most intimate friends. There are no external testimonies of any description in favor of a personal application of the sonnets, while there are abundant difficulties arising from the reception of such a theory. Among the latter is one deserving of special notice, for its investigation will tend to remove the displeasing interpretation all but universally given of two of the poems—those in which reference is supposed to be made to a bitter feeling of personal degradation allowed by Shakspeare to result from his connection with the stage. Is it conceivable that a man who encouraged a sentiment of this nature, one which must have been accompanied with a distaste and contempt for his profession, would have remained an actor years and years after any real necessity for such a course had expired? . . . When, in addition to this voluntary long continuance on the boards, we bear in mind the vivid interest in the stage, and in the purity of the acted drama, which is exhibited in the well-known dialogue in *Hamlet*, and that the poet’s last wishes included affectionate recollections of three of his fellow-players, it is difficult to believe that he could have nourished a real antipathy to his lower vocation. It is, on the contrary, to be in-

ferred that, however greatly he may have deplored the unfortunate estimation in which the stage was held by the immense majority of his countrymen, he himself entertained a love for it that was too sincere to be repressed by contemporary disdain."

**Sources**: Few of the plots of the plays were invented by Shakspeare, possibly none, though there are some for which no originals have been found. Many of the stories are very old, and had appeared in several versions and languages; many were already familiar to English audiences of that day. They were, for the most part, bald narrations of incidents, dull plays, or simple ballads. Under the name of each play will be found mention of the principal source or sources drawn upon. Below is given an alphabetical list of them under the names of authors, or, in cases where the author's name is not known of the novel, play, or story:

**ARIOSTO**. The story of Ariodanto and Genevra, from his "Orlando Furioso," which was known in an English translation by Sir John Harington (1591), resembles that of Hero in *Much Ado about Nothing*. The "Search for the Island of Lampedusa," from the same work, has a description of a storm at sea, which has been likened to that in *The Tempest*.

"**BARLAAM AND JOSEPHAT**," is a middle-age Greek romance of about A. D. 800, in which appeared the story of the caskets (*Merchant of Venice*) for the first time, so far as is known.

**BALE, BISHOP**. "The Pageant of Kynge John," by Bishop Bale, was written about 1550. See below "Troublesome Raigne of King John."

BANDELLO. *Twelfth Night* is supposed to be founded mediately or immediately on his novel "Nicuola," the original of "Apollonius and Silla." See RICH. His story of "S. Timbreo di Cardona" has some features and names in common with *Much Ado about Nothing*. See also BELLEFOREST, BROOKE, PAINTER, and DA PORTO.

BARCKLEY, SIR RICHARD. His "Felicity of Man" (1598) has an "Account of Timon."

BELLEFOREST published "Histoires Tragiques," translations, in which was the "Hystorie of Hamlet," from Bandello.

BOCCACCIO. The story of the wager in *Cymbeline* is found in that of "Bernabo da Genova," and *All's Well that Ends Well* is drawn from his story of "Giglietta di Nerbona."

BROOKE, or BROKE, ARTHUR, is the supposed author of the poem "Romeus and Juliet," after Bandello.

CAXTON, "Recuyell of the Historyes of Troye" (circa, 1476), was consulted, perhaps, for *Troilus and Cressida*.

CHAUCER, GEOFFREY. His "Troilus and Cryseyde" may have been referred to by Shakspeare in writing his drama.

CHETTLÉ. See WOLSEY, below.

CINTHIO, GIRALDI. His "Hecatommithi" has a story of a Moorish captain that seems to be a version of the one on which *Othello* is founded. See WHETSTONE.

DA PORTO LUIGI, published in 1535 an Italian novel telling the story of *Romeo and Juliet* for the first time, so far as is known, and the story was retold by Bandello in 1554.

"FAMOUS VICTORIES OF HENRY V., THE, CONTAINING THE HONOURABLE BATTELL OF AGINCOURT," a play written between 1580 and 1588, furnished the outlines of the two parts of *Henry IV.* and *Henry V.*

FIorentino, GIOVANNI, or S. GIOVANNI, of Florence. The incident of the buck-basket in the *Merry Wives of Windsor* is in his "Il Pecorone," as well as the circumstance of taking the husband into confidence. "Il Pecorone" also has the story of the bond used in the *Merchant of Venice*.

FOX, JOHN. His "Book of Martyrs" (1563) contains a passage that was probably before the writer of the first scene of the fifth act of *Henry VIII.*

GEOFFREY OF MONMOUTH, who wrote in the twelfth century, told the story of Lear and his three daughters.

"GERNUTUS, THE JEW," is the name of an old ballad giving the story of the bond that is used in the *Merchant of Venice*.

"GESTA ROMANORUM" is an old collection of stories in which the story of the caskets used in the *Merchant of Venice* and the history of *King Lear* are related.

"GL' INGANNATI" ("The Deceived"), an Italian play by an unknown author, strongly resembles *Twelfth Night*.

GOULART'S "Admirable and Memorable Histories" contains stories resembling those of the *Comedy of Errors* and *Measure for Measure*. It also gives the story of a trick played on an artisan by Philip the Good, Duke of Burgundy, evidently the original of the plot of the *induction* to the *Taming of the Shrew*.

GOWER, JOHN: Apollonius of Tyre, from his "Confessio Amantis," forms the basis of *Pericles*, in which Gower is introduced as the chorus. There was a version of the story in Laurence Twyne's "Patterne of Painefull Adventures" (1576).

GREENE, ROBERT. His "Pandosto: The Triumph of Time" (1588), afterward called "The History of Dorastus and Fawnia," furnished the material for *A Winter's Tale*. He is also the supposed author of the old play "Taming of a Shrew." In one of his works he refers to Shakspeare as "an upstart crow beautified with our feathers—in his own conceit the only shake-scene in the country."

HALL, EDWARD, an early historian whose chronicles were probably consulted. He wrote of the "Union of the two noble and illustre families of Lancastre and York" (1548).

HARINGTON. See ARIOSTO, above.

HIGGINS, JOHN, author of "How Queen Cordila in despair slew herself, the year before Christ 800," printed in "The Mirror for Magistrates" (1587), and perhaps referred to for *King Lear*.

HOLINSHED, RAPHAEL, wrote "Chronicles of Englande, Scotlande, and Irelande" (1577), which were largely drawn upon by Shakspeare in the English historical plays, and in *Cymbeline*, *Macbeth*, and *King Lear*.

LODGE, THOMAS, a dramatist and novelist, was the author of "Rosalynde: Euphues' Golden Legacie" (1592), which furnished the plot of *As You Like It*.

LUCIAN, a Greek satirical writer, tells the story of *Timon of Athens*, and was one of Shakspeare's authorities.

LYDGATE, "Historye, Sege, and Dystruccion of Troye" (1513).

MONSTRELET, ENGUERRAND DE, a French chronicler, 1390-1453: his account of the negotiations of Charles, King of Navarre, with the King of France for the Duchy of Nemours, may have furnished a hint for *Love's Labour's Lost*.

**MONTAIGNE, MICHEL.** The ideal commonwealth of Gonzalo in *The Tempest* is from Montaigne, whose works were translated into English by Florio in 1603. A copy of this translation, containing Shakspeare's autograph, now in the British Museum, is the only book that is known to have been owned by him.

**MONTEMAYOR:** his "Diana" contains the story of the "Shepherdess Felismena," from which some part of the plot of *Two Gentlemen of Verona* is supposed to have been drawn. The resemblance is not close.

**NORTH, SIR THOMAS,** translated Plutarch's "Lives" from a French version into English (1579), and his works undoubtedly furnished Shakspeare with materials for *Coriolanus*, *Timon of Athens*, *Julius Cæsar*, and *Antony and Cleopatra*. "The Life of Theseus" and "The Life of Pericles" also served in the *Midsummer-Night's Dream* and in *Pericles*.

"NORTHERN LORD," the, a ballad, has the story of the pound of flesh, resembling that in the *Merchant of Venice*.

**OVID.** Prospero's speech to the fairies in *The Tempest*, v. 1, is imitated from Medea's in Ovid, and many expressions in it are found in an old translation by Golding (1565-'87).

**PAINTER, WILLIAM.** His "Palace of Pleasure" (1566-'67) has the story of "Rhomeo and Julietta," from Bandello, "Giletta of Narbona," translated from Boccaccio, original of *All's Well that Ends Well*, and "The Life of Timon."

**PLAUTUS.** His "Mencechmi" was translated by W. W. (William Warner †), 1595, and resembles the *Comedy of Errors*.

**PLUTARCH.** See **NORTH**.

**RICH, BARNABY,** told the story of "Apollonius and Silla," on which *Twelfth Night* is based, in a collection called "Farewell to the Militarie Profession" (1581).

**SAXO GRAMMATICUS,** author of a "Historia Danica," in which the story of *Hamlet* appeared, wrote about the end of the twelfth century. See **BELLEFOREST**.

"**SHREWD AND CURST WIFE LAPPED IN MOREL'S SKIN, THE,**" is an old poem, slightly resembling *The Taming of the Shrew*.

**SIDNEY, SIR PHILIP.** His "Arcadia" (1590) has a story, "The Paphalgonian Unkind King," resembling that of Gloster and his sons in *King Lear*.

"**TAMING OF A SHREW, THE,**" is an old play of unknown authorship, on which *The Taming of the Shrew* was founded.

"**TROUBLESOME RAIGNE OF KING JOHN, THE,**" a play by an un-

known author, intervened between Bishop Bale's drama and that of Shakspeare, which is thoroughly remodelled from it.

"TRUE CHRONICLE HISTORY, THE, OF KING LEIR AND HIS THREE DAUGHTERS," is an old play, written about 1593.

TWYNE, LAURENCE. See above, under GOWER.

"WAKING MAN'S DREAM, THE," is in a fragment of an old book of stories conjectured to be a collection by Richard Edwards, published in 1570. In it is a version of the story of "Philip, the Good Duke of Burgundy," already referred to under Goulart as the original of the plot of the *induction* to the *Taming of the Shrew*.

WHETSTONE, GEORGE. His "Promos and Cassandra" (1578) resembles *Measure for Measure*. It was founded on a story by Giraldi Cinthio, and was first written by Whetstone in a play.

WOLSEY, CARDINAL, a drama by Henry Chettle and others (about 1601), probably furnished some suggestions for *King Henry VIII*.

"YORK AND LANCASTER, FIRST PART OF THE CONTENTION BETWEEN THE TWO FAMOUS HOUSES OF, WITH THE DEATH OF THE GOOD DUKE HUMPHREY," etc., and the "True Tragedie of Richard, Duke of Yorke," and the "Death of Good King Henrie the Sixt," are the old plays on which the second and third parts of *Henry VI*. are founded. It is uncertain whether they were written by Shakspeare himself, but it is highly improbable that they were, and doubtful whether the old plays came from the same hand.

He took part in the rebellion of Essex, was condemned for high treason, and kept in the Tower till the queen's death. He died in 1524. Some suppose that the *Sonnets* are also dedicated to him, his initials being simply reversed. For this, see SONNETS.

**Swinstead Abbey**, *King John*, *v.* 3, 6, 7. Swinstead, or Swineshead, is in Lincolnshire, seven miles from Boston, and was itself once a port, the sea flowing up to its market-place, which was a harbour. John did not die there, as in the play, but at Newark Castle, in Nottinghamshire. The story of his death is thus told by Roger of Wendover: "While Louis was continuing the siege of Dover for a length of time, and without success, John, with a large force, had been committing terrible ravages in the counties of Suffolk and Norfolk. At last he took his way through the town of Lynn, where he was received with joy by the inhabitants, and received large presents from them. He then took his march toward the north, but in crossing the river Wellester, he lost all his carts, wagons, and baggage-horses, together with his money, costly vessels, and everything which he had a particular regard for; for the land opened in the middle of the water and caused whirlpools, which sucked in everything, as well as men and horses, so that no one escaped to tell the king of the misfortune. He himself narrowly escaped with his army, and passed the following night at a convent called Swineshead, where, as was thought, he felt such anguish of mind about his property which was swallowed up by the waters, that he was seized with a violent fever and became ill; his sickness was increased by his pernicious gluttony, for that night he surfeited himself with peaches and drinking new cider, which greatly increased and aggravated the fever in him. He however left that place at early dawn, although in pain, and proceeded to the castle of Lafort [Sleaford] to take up his quarters, and at this place he was in such pain, that on the following day it was with difficulty that he reached Newark on horseback; there his disease gained ground, and he confessed himself and received the eucharist from the Abbot of Croxton. . . . Being then asked by the abbot where he would wish to be buried in case he should die, he answered, 'To God and St. Wolstan I commend my body and soul.' After this, on the night next after St. Luke the Evangelist's day [October 19, 1216] he departed this life, having reigned eighteen years and a half; his body was dressed in royal robes and carried to Worcester, and was there honourably buried in the cathedral church by the bishop of that place." Nothing now remains of the original abbey, which was founded in 1154. It was demolished in 1610, and

the materials were built into a stone mansion, known also as Swineshead Abbey.

**Sycorax**, a witch, mother of Caliban in *The Tempest*, spoken of in *i.* 2; *v.* 1. She had had Ariel for her servant, and for disobedience shut him up in a cloven pine, from which Prospero released him after a dozen years.

"As long as I can remember the play of *The Tempest*, one passage in it has always set me upon wondering. It has puzzled me beyond measure. . . . It is where Prospero, relating the banishment of Sycorax from Argier, adds:

'For one thing that she did,  
They would not take her life.'

. . . At length I think I have lighted upon a clue which may lead to show what was passing in the mind of Shakspeare when he dropped this imperfect rumour. In the 'Accurate Description of Africa,' by John Ogilby, folio, 1670, page 230, I find written as follows: 'In the last place, we will briefly give an account of the Emperor Charles the Fifth, when he besieged this city [Algier]. This prince, in the year 1541, having embarked upon the sea an army of 22,000 men aboard eighteen galleys and an hundred tall ships, not counting the barques and shallops, and other small boats, in which he had engaged the principal of the Spanish and Italian nobility with a good number of the Knights of Malta. . . . They next fell to battering the city by the force of cannon; which the assailants so weakened, that in that great extremity the defendants lost their courage and

resolved to surrender. But as they were thus intending, there was a witch of the town, whom the history does not name, which went to seek out Assam Aga, that commanded within, and prayed him to make it good yet nine days longer, with assurance that within that time he should infallibly see Algier delivered from that siege, and the whole army of the enemy dispersed so that Christians should be as cheap as birds. In a word, the thing did happen in the manner as foretold; for, upon the 21st day of October, in the same year, there fell a continual rain upon the land, and so furious a storm at sea, that one might have seen ships hoisted into the clouds and in one instant again precipitated into the bottom of the water; insomuch that that same dreadful tempest was followed with the loss of fifteen galleys and above an hundred other vessels; which was the cause why the Emperor, seeing his army wasted by the bad weather, pursued by a famine, occasioned by wrack of his ships in which was the greater part of his victuals and ammunition, he was constrained to raise the siege, and set sail for Sicily, whither he retreated with the miserable reliques of his fleet. In the meantime, that witch being acknowledged the deliverer of Algier, was richly remunerated and the credit of her charms authorized. . . . And hereupon those of Algier, to palliate the shame and the reproaches that are thrown upon them for making use of a witch in the danger of this siege, do say that the loss of the forces of Charles V. was caused by a prayer of one of their Marabous, named Cidy Utica, which was at that time in great credit, not under the notion of a magician, but for a person of holy life. Afterwards, in remembrance of their success, they have erected unto him a small mosque without the Babason gate, where he is buried, and in which they keep sundry lamps burning in honour of him; nay, they sometimes repair thither to make their *sala*, for a testimony of greater veneration.' Can it be doubted for a moment, that the dramatist had come fresh from reading some *older narrative* of this deliverance of Algier by a witch, and transferred the merit of the deed to his Sycorax, exchanging only the 'rich remuneration,' which did not suit his purpose, to the simple pardon of her life? Ogilby wrote in 1670; but the authorities to which he refers for his account of Barbary are Johannes de Leo, or Africanus, Louis Marmol, Diego de Haedo, Johannes Gramaye, Braeves, Cel. Curio, and Diego de Torres, names totally unknown to me, and to which I beg leave to refer the curious reader for his fuller satisfaction."—CHARLES LAMB.

He first appears in *i. 4*, having been exchanged for Lord Ponton de Saintrailles. His successes are enumerated in *iii. 4*, and he is there made Earl of Shrewsbury, before the king's coronation, which took place in 1431, though, as a matter of fact, he did not receive the title till 1442. He was afterward made Earl of Waterford and Wexford. In *ii. 3* the Countess of Auvergne alludes to the fact that his name was such a terror in France that "mothers stilled their babes" with it, and expresses surprise at the insignificance of the great general's appearance. He conducted the siege of Bordeaux and took the town, *iv. 2-5*, and was defeated and killed at Castillon, *iv. 7.* This occurred in 1453, long after the execution of Joan, though it is not so represented in the play. Talbot's death ended English hopes of dominion in France.

**Taming of the Shrew**, The, a comedy first printed in the folio of 1623. The date of writing has been variously conjectured, the dates assigned ranging from 1596 to 1606. There was an older play, "The Taming of a Shrew," by an unknown author, guessed to be Robert Greene, published in 1594, but probably on the stage for some time before. In this there was little of the part of Bianca and her suitors; but Shakspeare is not credited with the writing of this part. It is supposed to be the work of an inferior hand, either a co-labourer with him, or one who revamped the old play, and whose version was in turn revamped by Shakspeare, whose hand appears in the *induction* and the scenes in which Petruchio, Katherina, and Grumio are the chief actors. The story of the *induction* is told in the "Arabian Nights." It is given as an anecdote of Philip the Good, Duke of Burgundy, in Goulart's "Admirable and Memorable Histories," and as "The Waking Man's Dreame" in a collection of comic stories by Richard Edwards, published in 1570. That part relating

to Bianca is founded on Ariosto's "Gli Suppositi," translated by Gascoigne with the title "Supposes." The story of the shrew has some resemblance to that in an old poem, "The Curst Wife Lapped in Morel's Skin." The time of the comedy is the time of Shakspeare.

"That delicious episode, the *Induction*, presents us with a fragment of the rural life with which Shakspeare himself must have been familiar in his native county. With such animated power is it written that we almost appear personally to witness the affray between Marian Hacket, the fat ale-wife of Wincot, and Christopher Sly; to see the nobleman, on his return from the chase, discovering the insensible drunkard; and to hear the strolling actors make the offer of professional services that was requited by the cordial welcome to the buttery. Wincot is a secluded hamlet near Stratford-on-Avon, and there is an old tradition that the ale-house frequented by Sly was often resorted to by Shakspeare for the sake of diverting himself with a fool who belonged to a neighbouring mill. Stephen Sly, one of the tinker's friends or relatives, was a known character at Stratford-on-Avon, and is several times mentioned in the records of that town. This fact, taken in conjunction with the references to Wilmecote and Barton-on-the-Heath, definitely prove that the scene of the *Induction* was intended to be in the neighbourhood of Stratford-on-Avon, the water-mill tradition leading to the belief that Little Wilmecote, the part of the hamlet nearest to the poet's native town, is the Wincot alluded to in the comedy."—HALLIWELL-PHILLIPPS.

**Tempest**, The, is one of the latest of the plays in date of composition, the evidence going to show that it was written in 1610 or 1611, subsequently to all the others except *A Winter's Tale* and *Henry VIII.* De Quincey, Campbell, Malone, Maginn, and others believe it to be the very last. The source whence the story came has not been discovered; but the plot is said to resemble that of "The Beautiful Sidea," by Jacob Ayrrer, of Nuremberg; and it is thought that both were taken from some old tale or play. The fanciful commonwealth described by Gonzalo, *ii. 1*, is borrowed from a translation, published in 1603, of Montaigne's "Essays."

"The Tempest" is a specimen of the purely romantic drama, in which the interest is not historical, or dependent upon fidelity of portraiture, or the natural connection of events, but is a birth of the imagination, and rests only on the coaptation and union of the elements granted to, or assumed by, the poet. It is a species of drama which owes no allegiance to time or space, and in which, therefore, errors of chronology and geography—no mortal sins in any species—are venial faults, and count for nothing. It addresses itself entirely to the imaginative faculty."—COLERIDGE.

**Thersites**, a "deformed and scurrilous Grecian," character in *Troilus and Cressida*, first appearing in *ii. 1*.

"The character of *Thersites*, in particular, well deserves a more careful examination, as the Caliban of demagogic life; the admirable portrait of intellectual power deserted by all grace, all moral principle, all not momentary impulse—just wise enough to detect the weak head, and fool enough to provoke the armed fist of his betters; one whom malcontent Achilles can inveigle from malcontent Ajax, under the one condition that he shall be called on to do nothing but abuse and slander, and that he shall be allowed to abuse

as much and as purulently as he likes, that is, as he can; in short, a mule, quarrelsome by the original discord of his nature—a slave by tenure of his own baseness—made to bray and be brayed at, to despise and be despicable.”—COLERIDGE.

“From the rest, perhaps the character of Thersites deserves to be selected (how cold and school-boy a sketch in Homer!) as exhibiting an appropriate vein of sarcastic humour amid his cowardice, and a profoundness of truth in his mode of laying open the foibles of those about him, impossible to be excelled.”—GODWIN.

Allusion to Thersites, *Cymbeline*, *iv.* 2.

**Theseus**, Duke of Athens, character in the *Midsummer-Night's Dream*, introduced in the first scene. The festivities are to grace his marriage with Hippolyta.

He “is Shakspeare's early ideal of a heroic warrior and man of action. His life is one of splendid achievement and of joy; his love is a kind of happy victory, his marriage a triumph. From early morning, when his hounds, themselves heroic creatures, fill the valley with their ‘musical confusion’ until midnight, when the Athenian clowns end their ‘very tragical mirth’ with a Bergomask dance, Theseus displays his joyous energy and the graciousness of power.”—DOWDEN.

Shakspeare, as usual, does not attempt to follow the classic story of Theseus, or give a classic setting to the characters whose names he borrows. Allusion to the perjury of Theseus, his desertion of Ariadne, *Two Gentlemen of Verona*, *iv.* 4.

Excessive and immoderate in everything, Timon passes from his lavish liberality and belief in the virtue of all mankind to excessive distrust and hatred, forsakes the haunts of men, and hurls revilings and curses at all with little discrimination.

"But Timon can only rage and then die. His rage implies the elements of a possible nobleness in him; he cannot acclimatize himself, as Alcibiades can, to the harsh and polluted air of the world; yet the rage also proceeds from a weakness of nature."—DOWDEN.

"Insanity arising from pride is the key to the whole character; pride indulged manifesting itself indirectly in insane prodigality; pride mortified, directly in insane hatred."—MAGINN.

Allusion to "Critic Timon," *Love's Labour's Lost, iv. 3*.

**Timon of Athens**, a play first published in the folio of 1623, and supposed to have been written within the period from 1602 to 1608. The sources whence the material was drawn were Plutarch's "Life of Marcus Antonius," and Lucian's dialogue "Timon, or the Man-Hater," and perhaps an old play that has been found in manuscript, and is supposed to date from 1600 or earlier, though it is very doubtful whether Shakspeare had ever seen it. The critics are generally agreed that a large portion of the play is from the hand of some other writer than Shakspeare, who was either a co-labourer with him, wrote a play that Shakspeare took up and altered, or filled out a partly finished and abandoned work of his. The

parts not his are supposed to be the greater part of *i. 1* after Apemantus enters, and the remainder of the act; the passage in *ii. 2*, in which the fool appears; the greater part of *Act iii.*, though Mr. White attributes the latter part of the first scene to Shakspeare; the latter part of the speech of the steward in *iv. 2*; the third scene in *Act v.*, and perhaps the second. The time of the drama is that of the Peloponnesian war, B. C. 431-404.

**Titus Andronicus**, a tragedy supposed to have been printed as early as 1594, though no edition earlier than one of 1600 is known to

be now in existence. It is known to have been very popular on the stage. Many critics held the opinion that it was not Shakspeare's, basing the opinion mainly on the repulsive and inartistic brutality of the plot; some think that he may have been the author of some passages, or have touched up the whole play. Coleridge rejects it on the evidence of measure, though he thinks it not improbable that some passages were written by Shakspeare. Others, again, believe the play to be mainly his own, and suppose it to be his first tragedy, written when his powers were undeveloped in that direction, and that he may possibly have had one or more co-labourers who introduced the Latin quotations. Its date is fixed between 1585 and 1590 by an allusion to it in Ben Jonson's "Bartholomew Fair." The incidents are taken from an old mediæval story.

"The incidents and revolutions of fortune are horrible in the highest degree; and in this respect the play as much surpasses Marlowe's well-known pieces of violence and rage as it is superior to them in tragic energy and moral earnestness. The most fearful crimes are rapidly accumulated with steadily advancing enormity. When we think we have reached the summit of these most unnatural cruelties and vices, the next scene suddenly opens to our view a still higher ascent. The characters are sketches done with the coarsest touches and darkest colouring. . . . That, nevertheless, this drama is rich in isolated beauties, profound thoughts, and striking peculiarities—Shakspearean imagery which like lightning flashes over and illuminates the whole piece, and that single scenes are even deeply affecting and highly poetical—is generally admitted and requires no proof."—ULRICI.

"This [Cressida's vehement passion and shameless inconstancy] Shakspeare has contrasted with the profound affection represented in Troilus and alone worthy the name of love: affection, passionate indeed, swollen with the confluence of youthful instincts and youthful fancy, and glowing in the radiance of hope newly risen—in short, enlarged by the collective sympathies of nature, but still having a depth of calmer element in a will stronger than desire, more entire than choice, and which gives permanence to its own act by convert-

ing it into faith and duty. Hence, with excellent judgment, and with an excellence higher than mere judgment can give, at the close of the play, when Cressida has sunk into infamy below retrieval and beneath hope, the same will, which had been the substance and basis of his love, while the restless pleasures and passionate longings, like sea-waves, had tossed but on its surface—this same moral energy is represented as snatching him aloof from all neighbourhood with her dishonour, from all lingering fondness and languishing regrets, while it rushes with him into other and nobler duties, and deepens the channel which his heroic brother's death had left empty for its collected flood."

**Troilus**, name of a spaniel, *Taming of the Shrew*, iv. 1.

**Troilus and Cressida** was first published in a quarto edition in 1609, probably an unauthorized edition. In the folio of 1623 it is placed between the histories and the tragedies, and paged with neither of them, perhaps because the editors shared the perplexity of later critics, and were in doubt as to where it should be classed. It is usually placed with the tragedies. Critics have also been puzzled to assign the probable date or period at which the play was written; the most plausible opinion is that it was first written at an early period and afterward rewritten when the poet's powers were in their full maturity, 1606 or 1607. The sources from which Shakspeare probably drew were Chaucer's "Troilus and Creseide;" the "History of the Destruction of Troye," translated from the French of Raoul le Fevre by Caxton; Chapman's translation of Homer, and perhaps Lydgate's "Troy Book." The time is that of the Trojan war. In characterization, in single passages of beauty and wisdom, and in the working up of the details, this play is classed among the author's best; but it is lacking in unity of interest and in apparent design; so much so that some critics, notably Schlegel, have held its design to be a sort of ridicule of hero-worship, an ironical presentment of the story of the siege of Troy, and Charles Lamb says: "Is it possible that Shakspeare should never have read Homer, in Chapman's version, at least? If he had read it, could he mean to *travesty* it in the parts of those big boobies, Ajax and Achilles? Ulysses, Nestor, and Agamemnon are true to their parts in the 'Iliad;' they are gentlemen, at least. Thersites, though unamusing, is fairly deducible from it. Troilus and Cressida are a fine graft upon it. But those two big bulks—"

**Twelfth Night, or What You Will**, a comedy known to have been acted in 1602. The story bears a similarity to that of several earlier plays and novels—two Italian dramas, "Gl' Inganni" ("The Cheats"), another entitled "Gl' Ingannati" ("The Deceived"), a Spanish play, the "Engaños" ("The Deceits"), "The Twins," by Bandello, and "The Historie of Apolonius and Silla," by Barnabe Rich, the last of which it closely resembles in the part of the four lovers, though Shakspeare has omitted the coarseness of Rich's tale, added all distinctive touches to the principal characters, and introduced the humourous personages that surround them. The scene is laid in Illyria, according to Shakspeare's habit of using the unimportant particulars of his originals, but the titles and characters are English, and of his own time. *Twelfth Night* is one of the brightest, wittiest, and at the same time sweetest, of the comedies.

"The perfection of English comedy, and the most fascinating drama in the language. . . . It was appreciated at an early period as one of the author's most popular creations. There is not only the testimony of Manningham—a student at the Middle Temple, who saw it performed, and wrote of it in his diary—in its favour, but Leonard Digges, in the verses describing this most attractive of Shakspeare's acting dramas, expressly alludes to the estimation in which the part of Malvolio was held by the frequenters of the theatre."—HALLIWELL-PHILLIPPS.

**Two Gentlemen of Verona**, The, one of the earliest of the plays, is supposed to have been written about 1591, or perhaps still earlier. The story of Proteus and Julia resembles that of Don Felix and Felismena in "Diana," by George de Montemayor, which Shakspeare may have read in a translation by Bartholomew Yonge, pub-

lished in 1598, but made some years earlier; or from a play on the subject, "Felix and Philomena," 1584. The scenes are laid in Verona, Milan, and a forest on the outskirts of Mantua. Charles Knight thus presents the varying opinions of critics on this play: "Theobald tells us, 'This is one of Shakspeare's worst plays.' Hammer thinks Shakspeare 'only enlivened it with some speeches and lines thrown in here and there.' Upton determines that, 'if any proof can be drawn from manner and style, this play must be sent packing, and seek a parent elsewhere.' Johnson, though singularly favourable in his opinion of this play, says of it, 'There is a strange mixture of knowledge and ignorance, of care and negligence.' Mrs. Lenox, who, in the best slip-slop manner, does not hesitate to pass judgment upon many of the greatest works of Shakspeare, says, 'Tis generally allowed that the plot, conduct, manners, and incidents of this play are extremely deficient.' On the other hand, Pope gives the style of this comedy the high praise of being 'natural and unaffected.' Coleridge, the best of critics on Shakspeare, has no remark on this play beyond calling it 'a sketch.' Hazlitt, in a more elaborate criticism, follows out the same idea. Paul Dupont considers that this play possesses a powerful charm, which he attributes to the brilliant and poetical colouring of its style. He thinks, and justly, that a number of graceful comparisons, and of vivid and picturesque images, here take the place of the bold and natural conceptions which are the general characteristics of Shakspeare's genius. In these elegant generalizations, M. Dupont properly recognizes the vagueness and indecision of the youthful poet. The remarks of A. W. Schlegel on this comedy are acute, as usual: It 'paints the irresolution of love, and its infidelity toward friendship, in a pleasant but in some degree superficial manner; we might almost say, with the levity of mind which a passion suddenly entertained and as suddenly given up presupposes.'"

"The piece treats of the essence and power of love, and especially of its influence upon judgment and habit generally, and it is not well to impute to it a more defined idea. The twofold nature of love is here at the outset exhibited with that equal emphasis and that perfect impartiality which struck Goethe so powerfully in Shakspeare's writings."—GERVINUS.

**Ulysses**, general of the Greeks, character in *Troilus and Cressida*, introduced in *i. 3*.

"The speech of Ulysses in *iii. 3*, when taken by itself, is purely an exquisite specimen of didactic morality; but when combined with the explanation given by Ulysses, before the entrance of Achilles, of the nature of his design, it becomes an attribute of a real man, and starts into life. When we compare the plausible and seemingly affectionate manner in which Ulysses addresses himself to Achilles, with the key which he here furnishes to his meaning, and especially with the epithet 'derision,' we have a perfect eluci-

dation of his character, and must allow that it is impossible to exhibit the crafty and smooth-tongued politician in a more exact or animated style. The advice given by Ulysses is in its nature sound and excellent, and in its form inoffensive and kind; the name, therefore, of 'derision' which he gives to it marks to a wonderful degree the cold, self-centred subtlety of his character."—GODWIN.

**Venus and Adonis**, a poem first printed in 1593, and therefore one of the earliest of Shakspeare's works. In the dedication he calls it the first heir of his invention; whether he meant by that that it was first of all his writings, or earlier than any of his plays, or than any that were wholly original, is uncertain. The story as told by Shakspeare differs materially from Ovid's version, and is said to resemble more one by Henry Constable, published in 1600 in a volume called "England's Helicon," but not known to have been written before this one. The subject of the poem is repellent, but it contains descriptive passages of great beauty. See under LUCRECE.

The moral is that, though sin may be merry with the devil, it must become his prey in the end. There are other allusions, as to that reverend vice, *I. Henry IV.*, *ii. 4*, to vice's dagger in *II. Henry IV.*, *iii. 2*, the formal vice in *Richard III.*, *iii. 1*, and the vice of kings in *Hamlet*, *iii. 4*, a "king of shreds and patches." The vice wore motley.

whom she falls hopelessly in love, and is made the confidant of his affection for Olivia and his messenger to her. In the delicacy and refinement of her character, and her high breeding and gentleness, she somewhat resembles Perdita.

“Viola is like a heightened portrait of Julia of the ‘Two Gentlemen of Verona,’ enriched with lovely colour, and placed among more poetical surroundings. She has not the pretty sauciness of Rosalind in her disguise, but owns a heart as tender, sweet-natured, and sound-natured as even Rosalind’s. The mirth of the play belongs to other actors than Viola; her occasional playfulness falls back into her deep tenderness and is lost in it.”—DOWDEN.

ger, *iv.* 2; her suit to her son, *v.* 3; worth a city-full, *v.* 4. She has her son's haughty pride of class, hateful contempt for the people, thirst for honour, and, one might say, martial courage. By her suit to her son, *v.* 3, she is said to have "saved Rome and lost her son;" but she did not know that she was saving Rome at such a cost. Her speech to him, beginning "Speak to me, son," is taken very literally from the translation of Plutarch.

"The haughty temper of Volunnia, her admiration of the valour and high bearing of her son, and her proud but unselfish love for him, are finely contrasted with the modest sweetness, the conjugal tenderness, and the fond solicitude of his wife Virgilia. . . . But the triumph of Volunnia's character, the full display of all her grandeur of soul, her patriotism, her strong affections, and her sublime eloquence, are reserved for her last scene, in which she pleads for the safety of Rome, and wins from her angry son that peace which all the swords of Italy and her confederate arms could not have purchased."—MRS. JAMESON.

"The poet gradually wins us to an admiration of the hero by the most skilful management. First, through his mother. What a glorious picture of an antique matron, from whom her son equally derived his pride and his heroism, is presented in the exquisite scene [*i.* 3] where Volunnia and Virgilia talk of him they love according to their several natures! Who but Shakspeare could have seized upon the spirit of a Roman woman of the highest courage and mental power, bursting out in words such as these" [beginning, "His bloody brow!"]—KNIGHT.

**Ware**, the bed of, *Twelfth Night*, iii. 2. This famous bed, which is twelve feet square, is of oak, and very elaborately carved. It bears the date 1463; but as it seems by the carving to be of a later period, the date may have been marked on it to confirm the story that it once belonged to Warwick, the king-maker. It was in an inn

at Ware—the Saracen's Head—in 1864, when it was offered for sale at auction, at one hundred guineas; but as no one raised the price, it was bought in. One story is, that it was made and presented to the royal family, in 1463, by one Jonas Fosbrooke, and that Edward IV., being much pleased with the curious carving, gave him a pension for life. There is also a tradition that, years afterward, the bed was used on occasions when the town was very full; but those who tried to sleep in it were kept awake by pinches, scratches, and other small persecutions, caused, it was supposed, by the spirit of Jonas Fosbrooke, who resented the use of his favourite work, designed for royalty, by common people in a public inn.

Henry VI.*, where he is present in the first scene, but does not speak. He fought against Glendower at Shrewsbury, and in the wars in France, and made a pilgrimage to Palestine. He was regent of France from 1437 to 1439, and was one of the ambassadors sent to treat of the marriage of Henry V., who, at his death, appointed him guardian and tutor for his infant son, afterward Henry VI. In the "Rous Roll" he is shown holding the infant prince in his arms. The great earl was noted for his charity as well as for his ability and bravery, and the Emperor Sigismund spoke of him as the "father of courtesy." His daughter Anne married Richard Neville, who is the Warwick of the next play. In *ii.* 4 of *I. Henry VI.*, Warwick takes the white rose with Plantagenet, and prophesies that the quarrel then begun between the roses shall send "a thousand souls to death and deadly night."

**Warwick**, Richard Neville, Earl of, "the king-maker," charac-

ter in the second and third parts of *Henry VI.*, introduced in the first scene of each. He received the title and estates through his wife, heiress of the Beauchamp family, and afterward, at the death of his father, became Earl of Salisbury. He was on the side of York at first, and was in the battles at St. Albans and Towton; but he was offended at the marriage of Edward to Lady Grey, when he was negotiating a marriage with Bona of Savoy, *II. Henry VI.*, *iii.* 3, and an estrangement followed. Later he joined the forces of Queen Margaret, and was defeated and slain at Barnet (April 14, 1471), *III. Henry VI.*, *v.* 2. Allusions to him as the king-maker, second part, end of *scene 2*; *act ii.*, third part, *ii.* 4; *iii.* 3; to his device of the bear and ragged staff, *II. Henry VI.*, *v.* 1; his power, "a bug that feared us all," third part, *v.* 2. One of his daughters, Isabella, married the Duke of Clarence; the other, Anne, married Edward, son of Henry VI., and afterward Richard, Duke of Gloucester, and is a character in *Richard III.*; Clarence's dream of him, *Richard III.*, *i.* 4; Clarence's desertion of him for Edward, *ii.* 1. Warwick was said to have killed his horses at Towton, because he would not fly; at Barnet, to have fought on foot, for the encouragement of his soldiers. The former is commemorated by the figure of a horse on the side of a hill in Tysoe, in the county of Warwick, called the Red Horse, from the colour of the soil, and on Palm-Sunday, the anniversary of Towton, the people of the place meet together and "scour the horse," as it is called—clear away the vegetation that has accumulated on the figure.

**Win**, they laugh that, *Othello*, iv. 1.

**Winchester**, Henry Beaufort, Cardinal, and Bishop of (1370-1447), character in the first and second parts of *Henry VI.*, introduced in the first scene of each. He was a son of John of Gaunt and Catherine Swynford, and was therefore an uncle of Humphrey, Duke of Gloucester, the relationship referred to in *I. Henry VI.*, iii. 1. He was the leader of the peace party, Gloucester of the war party; their hatred toward each other is expressed in *I. Henry VI.*, i. 1, 3. The play follows tradition in imputing to Winchester a share in Gloucester's death and the consequent remorse and horrible end; but there is said to be no authentic evidence in favor of it. He is described by Holinshed as "haughty in stomach, high in countenance, and strong in malice and mischief." He was called Cardinal of England, though the Bishop of Durham was a cardinal at the same time, and Beaufort's title was Cardinal of St. Eusebius.

**Winchester**, Stephen Gardiner, Bishop of. See GARDINER.

**Windsor**, twenty-three miles west of London, scene of the *Merry Wives of Windsor*. It has been conjectured that Elizabeth was at Windsor Castle when, according to the tradition, it was written for her, and that it was first acted there, the scene being laid at Windsor to give the play a local interest. Herne's oak, which is introduced in v. 3-5, stood in Windsor Little Park.

**Windsor Castle**, scene of v. 6 in *Richard II.*; spoken of in the *Merry Wives of Windsor*, v. 5.

**Wine**, the temptation of, *Merchant of Venice*, i. 2; good, needs no bush, *As You Like It*, epilogue; effect of, *Timon of Athens*, iv. 3. **Winter's Tale, A**, was written late in 1610 or early in 1611. It is founded on a story by Robert Greene, first published in 1588 under the name of "Pandosto," and again in 1609, with the title, "The Historie of Dorastus and Fawnia." See SOURCES. The story was very popular, and passed through many editions. Shakspeare followed it quite closely in most points, but in the story Hermione is

actually dead, and the love of Leontes for Perdita, merely hinted at in the play, drives him to suicide in the story. The time of the play cannot be determined, or, rather, it has no time. Pagan and Christian usages and expressions are recklessly mingled. The queen is daughter of the Emperor of Russia, and her innocence is attested by the oracle at Delphos. The scene of action is first in Sicilia, afterward in Bohemia, then again in Sicilia. This play is regarded as one of the best in its treatment of character and motive, though its plot defies all the unities.

In *Macbeth*, i. 3; iv. 1; and v. 3, many popular notions about witches are alluded to—that they could sail any sea in a shell or a sieve; that they could assume the form of any animal; that they sold winds; that they are connected with the moon; that they untie the winds to fight against the churches, etc. The use of the supernatural in the plays of Shakspeare was in accord with the belief, universal in his time, in witchcraft, ghosts, omens, and portents of all kinds. The law against witches, which had been repealed in the time of Edward VI., was re-enacted in the time of Elizabeth, because they had so terribly increased; and during the reign of James I. the crime of witchcraft was made punishable by death upon the first conviction, Coke and Bacon being members of the Parliament that passed the law. King James published a book on "Demonology," in 1603; but men of far higher intellect were firm believers in the power of witches. Sir Thomas Browne declares that those who doubt it are atheists. Bishop Jewell, in a sermon before the queen, drew an affecting picture of the wasting away of the victims of sor-

cery. The names of familiars of witches, that are used in the plays, Barbason, Mahu, Smulkin, and others, are found in the writings of Reginald Scott, who published a book on witchcraft, in 1584, and of other authors of the time.

**Witches**, the, or the Three Weird Sisters, characters in *Macbeth*, playing substantially the same part as in the old record. These sisters answered to the fates of mythology, and are by some supposed to be the Norns or fates of Scandinavian mythology, the first of whom had to do with the past, the second with the present, the third with the future. The word is spelled "weyward" in the folio. They appear first in *i.* 1, and are seen by Banquo and Macbeth in *i.* 3, where they make their prophecy, of which the two speak again in *ii.* 1, and Banquo in *iii.* 1. They appear again in *iii.* 5 and in *iv.* 1, where they show him the apparitions and make another prophecy.

"They are wholly different from any representation of witches in contemporary writers, and yet presented a sufficient external resemblance to the creatures of vulgar prejudice to act immediately on the audience. Their character consists in the imaginative disconnected from the good."—COLERIDGE.

**Wolsey**, Thomas, Archbishop of York and cardinal, character in *Henry VIII.*, introduced in the first scene, where he is spoken of as a "butcher's cur." His father was a wealthy butcher at Ipswich. His power, ambition, and ability are spoken of in *i. 1; he is charged with oppressive taxation, i. 2; hated by the commons, ii. 1; his reasons for urging the divorce, ii. 1, 2; Katherine to him, ii. 4; his double-dealing discovered, the king's ironical praise, his fall, and soliloquy, iii. 2; Henry reading the inventory of his property, iii. 2.* (A mistake like this is said to have been made by the Bishop of Durham, and used by Wolsey to ruin him.) His death and character, *iv. 2.* This, put into the mouths of Katherine and Griffith, is taken almost literally from Holinshed. His farewell to greatness in the celebrated soliloquy is by some critics attributed to Fletcher. Wolsey is one of the great characters of the historic plays—haughty, ambitious, tricky, revengeful, he assumes equal power with the king, intends to make himself pope, pursues the unfortunate Buckingham to death, and raises the question of illegality in the king's marriage in order to bring about a union with the sister of the French king, and thereby further his own ambitious plans. But the king makes his own choice of Katherine's successor, and Wolsey's scheme falls to the ground, followed by his own ruin. In his fall he is represented in the play as noble, dignified, and Christian-like.

His daughter Elizabeth became the wife of Edward IV., and his son Anthony is the Earl Rivers of *Richard III.* After the marriage of his daughter, he became a zealous Yorkist, and being taken by the insurgents after the battle of Edgecote (July 26, 1469), he and his son, Sir John Woodville, were beheaded, without trial, at Coventry.

His defection from Henry's predecessor is recounted in *Richard II.*, *ii. 2*. **York**, Archbishop of. mentioned in *III. Henry VI.*, *iv.* 3. George Neville, brother of Warwick. See ROTHERHAM and SCROOP.

**York and Lancaster, Houses of.** See WARS OF THE ROSES.

**York**, Duchess of, a character in *Richard II.*, introduced in *v. 2*, where the treason of her son Aumerle is discovered by her and the duke. In *v. 3* she pleads with the king for his pardon. The mother of Aumerle, the Duchess Isabel, daughter of Peter the Cruel, King of Castile and Leon, died four or five years earlier than the time of the play; and the Duchess at this time was his step-mother, Joan Holland, daughter of the Earl of Kent. But Shakspeare evidently intends the character for Aumerle's own mother.

**York**, Cicely Neville, Duchess of, wife of Richard, Duke of York, and mother of two kings, Edward IV. and Richard III., was distinguished for her beauty, and was called in her youth the "Rose of Raby." She is a character in *Richard III.*, where her son instructs Buckingham to throw a slur on her character—which is said to have been spotless—in order to prove Edward illegitimate, and put aside the claim of his son to the throne. The duchess appears in *ii. 2*, where she lays her curse on her unnatural son, hoping it may weigh heavier on the field than all his armour—a saying recalled when he is wearied by his beaver and his lance on Bosworth Field.

**York**, Edmund of Langley, Duke of, a character in *Richard II.*, first appears in *ii. 1*. In *v. 2* and *3* he denounces Aumerle, his traitorous son. Coleridge says: "There is scarcely anything in Shakspeare in its degree more admirably drawn than York's character; his religious loyalty struggling with a deep grief and indignation at the king's follies; his adherence to his word and faith, once given, in spite of all, even the most natural, feelings. You see in him the weakness of old age, and the overwhelmingness of circumstances, for a time, surmounting his sense of duty, the junction of both exhibited in his boldness in words and feebleness in immediate act; and then, again, his effort to retrieve himself in abstract loyalty, even at the heavy price of the loss of his son." In contrast with this view is that of Gervinus, who regards York as the type of political faint-heartedness and neutrality and of cowardly loyalty to the strong and powerful, his weakness carried into unnatural obduracy when he urges his son's death under the fear that suspicion may fall upon himself.

**York**, Edward Plantagenet, Duke of, character in *Henry V.*, first appears in *iv. 3*, where he asks permission to lead the van at Agincourt. He is the Aumerle of *Richard II.*, whose part in the conspiracy to take the life of King Henry IV. is discovered in *v. 2*. He was restored to his father's title in 1406, and fought valiantly at Agincourt. His death on the field is described in *Henry V.*, *iv. 6*.

He left no children, and the title was given to his nephew, who is the Duke of York in the three parts of *Henry VI.*

**York**, Richard Plantagenet, Duke of (1410-1460), character in the three parts of *Henry VI.* He was a son of the Earl of Cambridge, who was executed for a plot against Henry V., *I. Henry VI., ii. 5.* The son was relieved from the effects of his father's attainder in 1425, and restored to his titles and inheritance, *iii. 1,* and was afterward successively Constable of England, Regent of France, *iv. 1,* and Lieutenant of Ireland. He first appears in *ii. 4* of the first part, in a quarrel with Somerset; and it was under cover of hostility to Somerset that he placed himself in opposition to the king. In *v. 3* of the first part he captures Joan of Arc. He is introduced in the first scenes of the other two parts. In the first scene of the second part, and again in *iii. 1,* he declares in soliloquy his ambitious designs. His pedigree is given, though not altogether correctly, in *ii. 2,* and his title to the throne. In *v. 1* he defies the king. In the third part, first scene, Henry consents to make him heir to the throne that he has seized, if he will give it up to him (Henry) during his lifetime. He fell at the battle of Wakefield, and his head was set on the walls of York. In the play, third part, *i. 4,* he is taken prisoner, and stabbed by Clifford and afterward by Queen Margaret, who has put a paper crown on his head. Of his four sons, Edmund, Duke of Rutland, was killed by Clifford, *III. Henry VI., i. 3,* just before his father's death; George, Duke of Clarence, was murdered in the Tower; and Edward and Richard reigned as Edward IV. and Richard III. (*q. v.*)

"The principal figure of the two plays, Richard of York, is almost throughout delineated as if the nature of his more fearful son were prefigured in him. Far-fetched policy and the cunning and dissimulation of a prudent and determined man are blended in him—not in the same degree, but in the same apparent contradiction as in Richard—with firmness, with a hatred of flattery, with inability to cringe, and with bitter and genuine discontent."—GERVINUS.

**York**, Richard Plantagenet, Duke of, the younger of the two sons of King Edward IV., the two little princes who were imprisoned in the Tower and assassinated by order of their uncle, Richard III. Although the weight of evidence goes to show that the princes were actually murdered, as in the play, many entertained doubts of it, and supposed that one or both of them escaped. Hence the claim of Perkin Warbeck, in the reign of Henry VII., to be Prince Richard, gained credence, and made his imposture formidable.

**York**, sun of, *Richard III., i. 1.* Edward IV., whose cognizance

was a sun, from the three suns that were said to have appeared at the time of his victory at Mortimer's Cross.

**York-place**, name of, changed to Whitehall, *Henry VIII.*, *iv.* 1.

**Yorkshire**, Gualtree Forest in, scene of *II. Henry IV.*, *iv.* 1-3.

**Young**, so, and so villainous, *As You Like It*, *i.* 1; the wise die, *Richard III.*, *iii.* 1; so, and so untender, *King Lear*, *i.* 1; so, and so unkind, *Venus and Adonis*, *l.* 187.

**Your love and pity doth the impression fill**, *Sonnet cxii.*

**You spotted snakes**, song, *Midsummer-Night's Dream*, *ii.* 2.

**Youth**, home-keeping, *Two Gentlemen of Verona*, *i.* 1; salt of, left, *Merry Wives of Windsor*, *ii.* 3; men moved by, *Measure for Measure*, *i.* 3, near the end; aims and ends of, *Measure for Measure*, *i.* 4; wants of, *Measure for Measure*, *iii.* 1; blaze of, *All's Well that Ends Well*, *v.* 3; a stuff will not endure, *Twelfth Night*, *ii.* 3, song; is easily amused, *II. Henry IV.*, *iv.* 4.

**ERRORS IN THE USE OF ENGLISH.** By the late WILLIAM B. HODGSON, LL. D., Professor of Political Economy in the University of Edinburgh. American revised edition. 12mo, cloth, \$1.50.

"This posthumous work of Dr. Hodgson deserves a hearty welcome, for it is sure to do good service for the object it has in view—improved accuracy in the use of the English language. . . . Perhaps its chief use will be in very distinctly proving with what wonderful carelessness or incompetency the English language is generally written. For the examples of error here brought together are not picked from obscure or inferior writings. Among the grammatical sinners whose trespasses are here recorded appear many of our best-known authors and publications."—*The Academy*.

**THE ENGLISH GRAMMAR OF WILLIAM COBBETT.**

Carefully revised and annotated by ALFRED AYRES. With Index. 18mo, cloth, extra, \$1.00.

"I know it well, and have read it with great admiration."—RICHARD GRANT WHITE.

"Cobbett's Grammar is probably the most readable grammar ever written. For the purposes of self-education it is unrivaled. Persons that studied grammar when at school and failed to comprehend its principles—and there are many such—as well as those that never have studied grammar at all, will find the book specially suited to their needs. Any one of average intelligence that will give it a careful reading will be rewarded with at least a tolerable knowledge of the subject, as nothing could be more simple or more lucid than its expositions."—*From the Preface*.

**THE ORTHOEPIST:** A Pronouncing Manual, containing about Three Thousand Five Hundred Words, including a Considerable Number of the Names of Foreign Authors, Artists, etc. that are often mispronounced. By ALFRED AYRES. 18mo, cloth, extra, \$1.00.

"It gives us pleasure to say that we think the author, in the treatment of this very difficult and intricate subject, English pronunciation, gives proof of not only an unusual degree of orthoëpical knowledge, but also, for the most part, of rare judgment and taste."—JOSEPH THOMAS, LL. D., in *Literary World*.

**THE VERBALIST:** A Manual devoted to Brief Discussions of the Right and the Wrong Use of Words, and to some other matters of Interest to those who would Speak and Write with Propriety, including a Treatise on Punctuation. By ALFRED AYRES. 18mo, cloth, extra, \$1.00.

"This is the best kind of an English grammar. It teaches the right use of our mother-tongue by giving instances of the wrong use of it, and showing why they are wrong."—*The Churchman*.

"Every one can learn something from this volume, and most of us a great deal."—*Springfield Republican*.

"One of the handsomest of modern anthologies."—*Boston Courier*.

"Mr. Bunce presents the reader to an ideal gathering of pleasant people who meet during eight evenings to hear one of their number read selections of graceful, flattering, sweet, comfortable, enticing, pathetic, rhapsodical, chivalrous poems, and parts of poems, which have been said and sung by poets in all ages. . . . A delightful collection of verse."—*Philadelphia Press*.

**THE LOVE POEMS OF LOUIS BARNAVAL.** Edited, with an Introduction, by CHARLES DE KAY. 12mo, cloth, \$1.50.

**THE PARCHMENT SHAKSPERE COMPLETE.** A new edition of Shakspeare's Works. In twelve volumes. Bound in parchment, uncut, gilt top. 16mo, \$1.25 each. In sets, half calf, \$30.00; full calf, \$40.00.

This edition is printed with new type cast expressly for the work, and in a form and style which give it peculiar elegance. The text is mainly that of DELIUS, following closely the folio edition of 1623, the chief difference consisting in a more sparing use of punctuation than that employed by the well-known German editor. Wherever a variant reading is adopted, some good and recognized Shakspearean critic has been followed. In no case is a new rendering of the text proposed; nor has it been thought necessary to distract the reader's attention by notes or comments.

"There is perhaps no edition in which the works of Shakspeare can be read in such luxury of type, and quiet distinction of form, as this."—*Pall Mall Gazette*.

"It is as a kind of Talker's Guide, or Hand-Book of Conversation, that we wish to recommend the present volume. The compiler has done his work, which was evidently a labor of love, with judgment and discretion in the main; he has worked through his author's writings and speeches, from 'Vivian Grey' to the discourse to the Lords in the March of 1881; and his volume contains the most characteristic utterances of a great and successful artist in life, who was renowned for good and characteristic speech."—*The Athenæum* (London).

**The Household Book of Poetry.** Edited by CHARLES A. DANA. Entirely new edition, from new type, with nearly two hundred additional poems. Steel Engravings. Square 8vo. Cloth, gilt, \$5.00.

"When the first edition of 'The Household Book of Poetry' was published by Mr. Dana in 1857, no other collection could so much as aspire to rival it. Since then we have had Bryant's collection and Emerson's collection, both by poets of fame, and both presumably eclipsing the effort of a writer who is not, so far as the world knows, a poet. Nevertheless Mr. Dana's collection remains the best of the three. The book deservedly keeps the lead in popular favor which it took at the start."—*New York Times*.

"Every intelligent reader and student of poetry has of course his own favorites, but we are safe in saying that no popular anthology is so well calculated as this to gratify and instruct the general public, or to provide for the genuine lover of verse so much that is good and worthy of preservation."—*Boston Traveller*.

"Mr. Dana has added nearly two hundred poems to his well arranged collection, including many short poems by authors who have not published volumes. The collection now includes eleven hundred and seventy-five selections from three hundred and seventy-seven authors, eighty-five of whom are Americans, and fifty-two women. This edition gives a list of authors, a list of the poems, and an index of first lines, and is printed with new type."—*New York World*.

**Fifty Perfect Poems.** A Collection of Fifty Acknowledged Masterpieces, by English and American Poets, selected and edited by CHARLES A. DANA and ROSSITER JOHNSON. With Seventy Original Illustrations from Drawings by Alfred Fredericks, Frank Millet, Will Low, T. W. Dewing, W. T. Smedley, F. O. C. Darley, Swain Gifford, Harry Fenn, Appleton Brown, William Sartain, Arthur Quartley, J. D. Woodward, Walter Satterlee, S. G. McCutcheon, and J. E. Kelley. The illustrations are printed on Japanese silk paper, and mounted on the page. The volume is bound in silk. Large 8vo. \$10.00.

"The title of this volume may perhaps appear a little audacious to those who recall Pope's familiar dictum as to the impossibility of a faultless piece. In the absolute sense of the term, there is, of course, no perfect poem, because there is no perfect thing of any kind. But, as every art has its limitations, in whatsoever work the imperfections are caused by these limitations alone, the artist may fairly be said to have succeeded to perfection. On this principle the poems here collected have been chosen."—*From Preface*.

**The Bryant Birthday-Book.** With Portrait of Bryant and Twelve Engravings illustrative of the Months. Printed with red lines. 18mo. Cloth, red edges, \$1.25.

"The Bryant Birthday-Book" is a little larger than the Longfellow, Whittier, and other birthday books, and a handsomer volume. It is printed with red lines, and contains a portrait of Bryant and twelve illustrations appropriate for the months. The binding is elegant and unique.

**THE GREVILLE MEMOIRS COMPLETE.**

**A JOURNAL OF THE REIGNS OF KING GEORGE IV AND KING WILLIAM IV.** By the late CHARLES C. F. GREVILLE, Esq., Clerk of the Council to those Sovereigns. Edited by HENRY REEVE, Registrar of the Privy Council. Two vols. 12mo. Cloth, \$4.00.

"Since the publication of Horace Walpole's Letters, no book of greater historical interest has seen the light than the Greville Memoirs. It throws a curious, and, we may almost say, a terrible light on the conduct and character of the public men in England under the reigns of George IV and William IV. Its descriptions of those kings and their kinsfolk are never likely to be forgotten."—*New York Times*.

**A JOURNAL OF THE REIGN OF QUEEN VICTORIA, FROM 1837 TO 1852.** The "Greville Memoirs," Second Part. By the late CHARLES GREVILLE, Clerk of the Council. Uniform with Part First. Two vols. 12mo. Cloth, \$4.00.

"Mr. Greville's Diary is one of the most important contributions which have ever been made to the political history of the middle of the nineteenth century. He is a graphic and powerful writer; and his usual habit of making the record while the impression of the events was fresh upon his mind, gives his sketches of persons and places, and his accounts of conversations, great vividness. The volumes will be read with as much interest for their sketches of social life as for their political value."—*London Daily News*.

**A JOURNAL OF THE REIGN OF QUEEN VICTORIA, FROM 1852 TO 1860.** By the late CHARLES GREVILLE, Esq., Clerk of the Council. Being third and concluding part of the "Greville Memoirs." One vol. 12mo. Cloth, \$2.00.

The preceding volumes of the "Greville Memoirs" consist of "A Journal of the Reign of King George IV and King William IV" in two vols.; and "A Journal of the Reign of Queen Victoria, from 1837 to 1852," in two vols. Price in each case, per vol., \$2.00.

This volume, in addition to personal anecdotes, deals with many important events, such, for instance, as the re-establishment of the French Empire, the Crimean War, the Indian Mutiny, and the Italian War.

**THE HISTORICAL REFERENCE-BOOK, COMPRISING A CHRONOLOGICAL TABLE OF UNIVERSAL HISTORY, A CHRONOLOGICAL DICTIONARY OF UNIVERSAL HISTORY, A BIOGRAPHICAL DICTIONARY.** With Geographical Notes. For the Use of Students, Teachers, and Readers. Second edition. By LOUIS HEILPRIN. Crown 8vo, 579 pages. Half leather, \$3.00.

"A second, revised edition of Mr. Louis Heilprin's 'Historical Reference-Book' has just appeared, marking the well-earned success of this admirable work—a dictionary of dates, a dictionary of events (with a special gazetteer for the places mentioned), and a concise biographical dictionary, all in one, and all in the highest degree trustworthy. Mr. Heilprin's revision is as thorough as his original work. Any one can test it by running over the list of persons deceased since this manual first appeared."—*Evening Post*.

# The Young People of Shakespeare's Dramas.

*For Youthful Readers.*

By AMELIA E. BARR.

WITH ILLUSTRATIONS. . . . 12MO. CLOTH, \$1.50.

This work consists of scenes selected from Shakespeare's plays, in which youthful characters appear, accompanied with explanatory comments, and following each selection is an historic sketch, enabling the reader to compare the historical facts with the Shakespearean version. It is well calculated to please young readers.

"It was certainly a very happy thought which led Mrs. Barr to plan and execute this excellent book. Shakespeare has been drawn upon in many ways and by many writers, but the marshaling in line of his young people for the sake of young readers is, if we are not mistaken, breaking ground in a new direction. These children of Shakespeare have each of them something of the genius of their father, and to know them is to know something of the greatest mind in English literature; such an acquaintance can not be made too early or become too intimate, and, if Mrs. Barr's attractive book shall serve to interest young readers in the great dramatist, she will have performed a task of the most useful and beneficent kind."—*New York Christian Union*.

"A beautiful illustrated volume, and well fitted to lead to an interest in the masterpieces of English literature."—*New York Observer*.

"A novel and useful compilation."—*New York Independent*.

"The Young People" will repay our attention, and open to us quite a new field in the manifold and inexhaustible treasury of genius."—*New York Examiner*.

"The work is prepared for young readers. The editor has taken the chief passages in the dramas in which the youthful characters appear, and connected them with a thread of narrative and explanation, so that the whole reads as a series of stories. The work is quite interesting, and will introduce young Shakespeare students to the higher grades of the study."—*New York Home Journal*.

"An altogether delightful book."—*New York World*.

"A very interesting book for young persons, to whom we cordially commend it."—*Boston Evening Transcript*.

"A happy thought inspired the task, and it is a source for congratulation that it was undertaken by one who has performed it in a spirit of such thoughtful and intelligent sympathy with the subject."—*Boston Gazette*.
